Product Design Steven Harkin, UK

Steven Harkin is the recipient of a prestigious, ISS Institute/Victorian Government (Design) Fellowship. He will travel to Melbourne to share his expertise and insights in creating innovative designs, then taking them to a niche manufactured product.

I work continually towards creating bags, attache cases and briefcases that are distinctive, classic and contemporary, of the highest standards in quality, and break new ground in development of materials and techniques in anodised aluminium, MDF, acrylic, laminex and rubber and, of course, leather.

Design Law, Patents... James Samargis

is a Barrister specialising in Intellectual Property Law.

His presentation will cover information concerning issues and options relating to designs, patents, trade marks and copyright. James is also a registered Patent Attorney and has had extensive experience in both litigious and non-litigious work covering all facets of intellectual property: patents, trade marks, designs, copyright, confidential information, unfair trade practices, unfair advertising and licensing matters. James has a keen interest in the design process, from artistic conceptualization to its final form using technological developments in industry and in information technology.

ISS Institute proudly acknowledges the support of the organisations and individuals who generously contribute funds, in-kind goods and services, also its founders the Palladio Foundation and the Australian Multicultural Foundation

Registration Form

break new ground

public lecture

Tuesday 9 May 2006

Post, email or fax to:

ISS Institute, 101/685 Burke Road, Camberwell 3124 Victoria
T 03 9882 0055 F 03 9882 9866 E issi.ceo@pacific.net.au

Fee

\$45 incl. GST

Student \$15 incl. GST

Payment Method:

Cash (Pay directly at ISS office or by arrangement)

Cheque (Make payable to 'ISS Institute')

Postal Order (Make payable to 'ISS Institute')

Credit Card (Diners and American Express are not accepted)

Bankcard Mastercard Visa

Enrolment • Entry Requirements In general no formal entrance requirements are necessary.

• Conditions of Registration Complete the registration form attached. Enrolment can be made by email, post or fax. Cash must be paid at the ISS office - do not mail. An email or fax of confirmation will be sent after full payment of fee. Note: A position in the lecture will not be reserved without payment being received by this office. Enrolment is on a firstcome- first-served basis based on time of receipt of fees. If you have not received an email or fax of confirmation, please contact the ISS Institute office on 9882 0055 to find out the status of your registration. Do not assume that because you have sent an application you are automatically enrolled in the lecture **• Refunds** Please check your enrolment carefully. We regret that a refund will only be given if the lecture does not proceed

• Cancellation ISS Institute reserves the right to cancel the course if minimum registration numbers are not attained. In the event of cancellation due to insufficient enrolments or other, all fees will be fully refunded. Two or more working days notice will be given should the lecture be cancelled **• Disclaimer** ISS Institute reserves the right to amend or cancel any or all sessions listed herein without notice or prejudice. ISS Institute takes reasonable steps to obtain and give information about the lecture from appropriate sources, including materials used and the safety of the environment, but accepts no responsibility for inadequate or incorrect information given to it, or in the course notes, by the presenters, supplier of materials or other third party **• Privacy** ISS Institute may photograph or video record workshop participants activities for use in promotion of the work of ISS Institute. Please let us know if you object to use of pictures of yourself in this way.

April 2006

about ISS Institute

Since 1989, ISS Institute, an independent, national, innovative organisation, has provided opportunities for Australian industry and commerce, learning institutions and public authorities to gain best-in-the-world skills and experience in traditional and leading-edge technology, design, innovation and management.

ISS Institute offers a broad array of services to upgrade Australia's capabilities in areas that lead to commercial and industrial capacity and, in turn, return direct benefits to Australia's metropolitan, rural and regional businesses and communities.

Our core service lines are identifying capabilities (knowledge, skills and insights) to fill skill gaps (**skill deficiencies**), which are not available in accredited university or TAFE courses; acquiring those capabilities from overseas (**Overseas Skills Acquisition Plan - Fellowship Program**); then placing those capabilities into firms, industry and commerce, learning institutions and public authorities through the **ISS Research Institute**.

Importantly, fellows must pass on what they have learnt through a report and a wide range of ISS Institute education and training

activities and events such as workshops, lectures, seminars, forums, demonstrations, showcases and conferences. The activities place these capabilities, plus insights (attitudinal change), into the minds and hands of those that use them - trades and professional people alike - **the multiplier effect**.

We work across industries and along the Value and Supply Chain in an integrated approach:

- Filling skill deficiencies and skill shortages,
- Valuing the trades as equal, but different to professional disciplines,
- Using 'design' as a critical factor in all aspects of work.
- Working in collaboration and enhancing communication (trades and professional),
- Learning from the past and other contemporary cultures, then transposing those skills, knowledge and insights, where appropriate, into today's businesses.

At ISS Institute we have significant human capital resources. We draw upon our staff, industry partners, specialists in their field and Fellows, here and around the world.

We value individuals, therein, we are client focused and operate within an issues-solutions based approach to business, education and training.

Listening and questioning skills are crucial to the work of ISS. We learn of industry and commerce's specific needs and directions, then we are able to bring our unique perspectives, ideas and solutions to their workplace.

We have no vested interest other than to see Australian talent flourish and, in turn, business succeed in local and global markets.

At all times, quality is paramount and we work within an environment of honesty, trust and integrity to deliver change whereby individuals gain; industry and business gain; the Australian community gains economically, educationally and culturally.

ISS Institute has recently secured DGR status.
