Fellowships Listing

1991 to 2011

superior pathways to business growth...

Over the past twenty years talented people from every Australian state and territory, as well as renown international experts, have been honoured for their capabilities in their chosen field by being awarded an *ISS Institute Overseas Fellowship*.

This booklet details a brief snapshot of each Fellow, the year in which they won their Fellowship, their employment situation at the time of their award, the skills deficiencies and the countries where they undertook their study program.

An ISS Institute Fellowship opens doors to people and places for talented and skilled individuals who earn the privilege to travel abroad. They return more confident and knowledgeable about their field and with an expanded network of professional contacts. They have new ideas, new enthusiasms, enhanced skills and knowledge and a shift in attitude to embrace a global perspective of lasting benefit to themselves, to colleagues, to industry and to a rich and productive Australian culture.

Individuals gain; industry and business gain; the Australian community gains economically, educationally and culturally.

In a careful, structured and effective way, ISS Institute Fellowships and activities improve our ability to compete with the rest of the world.

1991

Specialised Skills Training Fellowship

JOHN HUDSON (Melbourne, Victoria)

Painter, Decorator/Renovator, Teacher Melbourne College of Decoration, studied at the European Centre for Training Craftsman in the Architectural Heritage, Venice, Italy to study 'Scagliola: Wall Painting Conservation'

Industries Building • Construction • Heritage
Skills Scagliola • Wall painting conservation
Sponsors Victorian Ethnic Affairs Commission, Palladio Foundation, Australian Bicentennial Multicultural Foundation, Melbourne College of Decoration

Specialised Skills Training Fellowship

LOUISE SKACEJ (Melbourne, Victoria)

Architectural Ceramicist, Sculptor and Lecturer School of Art and Design, Monash University, studied 'Casting and Freehand Drawing' at the European Centre for Training Craftsman in the Architectural Heritage, Venice, Italy

Industries Art and Design • Manufacturing
Skills Casting technologies
Sponsors Victorian Ethnic Affairs Commission, Palladio Foundation, Australian Bicentennial Multicultural Foundation, Monash University School of Art and Design

Specialised Skills Training Fellowship

DANIEL JENKINS (Melbourne, Victoria)

Designer and Metalworker, Lecturer at RMIT, studied at the European Centre for Training Craftsman in the Architectural Heritage, Venice, Italy in 'Chasing: Modern Wrought Iron in the Historic Building'

Industries Metalwork • Art and Architecture
Skills Forged metalwork and chasing
Sponsors Victorian Ethnic Affairs Commission, Palladio Foundation, Australian Bicentennial Multicultural Foundation, RMIT (TAFE)

1992

Specialised Skills Training Fellowship

SANDRA COCKBURN (Melbourne, Victoria)

Framer and Conservator, National Gallery of Victoria and self-employed, studied in 1992 at the National Gallery of London; 1993 at the Metropolitan Museum of Art, New York 'Frame Gilding, Gesso work and

Conservation, Documentation, Display of Treatment of Frames.'

Industry Framing
Skills Frame conservation • Gilding • Carving
Gesso work
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation

Specialised Skills Training Fellowship

CHRISTOPHER LAMBERT (Melbourne, Victoria)

Jeweller/Teacher, Coordinator of Jewellery and Electroplating, Northern Metropolitan College of TAFE studied in Indonesia
Industry Jewellery Manufacturing
Skills Traditional technologies in jewellery production. Industry placement at the foundry of Sigid Suwandi Woroadomgrat, Upgualart, Indonesia • Oxidising and fine sand techniques • Casting • Chasing • Filigree • Granulation

Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Northern Metropolitan College of TAFE

Specialised Skills Training Fellowship

ANDREW PATIENCE (Melbourne, Victoria)

Stonemason at University of Melbourne, Stonemasonry Workshop, travelled to Germany and Italy to study 'Conservation of Stone Monuments'. The study program was facilitated by the European Centre for Training Craftsman in the Architectural Heritage, Venice, Italy

Industries Stonemasonry
Skills Stone • Chemical applications in the preservation of stone • Documentation and survey testing • Philosophy of conservation
Carving and architectural details • Government/industry relations
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Melbourne University

1993

Specialised Skills Training Fellowship

BRONWYN HUGHES (Melbourne, Victoria)

Glassworker and Conservator, Senior Lecturer and Coordinator of the Glass Studies courses at Monash University studied in the USA, England and France

Industry Stained glass
Skills Stained glass conservation and restoration and documentation procedures
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Monash University

Specialised Skills Training Fellowship

HELEN LARDNER (Melbourne, Victoria)

Architectural conservator and heritage consultant, studied in Venice, Italy

Industries Heritage • Building • Construction
Skills Stone conservation. Studied 'Stone Technology' course, ICCROM, Venice, Italy
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Historic Buildings Council

Specialised Skills Training Fellowship

KENNETH NEFF (Melbourne, Victoria)

Cabinetmaker (restorer and maker of individually crafted furniture) studied in London, England at the Victoria and Albert Museum's Conservation Department; at Hertford House's Wallace Collection and at Marlborough House with the Royal Collection and the Queen's conservators

Industry Furniture
Skills Wood veneering in furniture, marquetry and architectural fitments
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation

Specialised Skills Training Fellowship

STEPHEN DAVIES (Melbourne, Victoria)

Footwear Designer/Maker and Teacher, studied in England and Italy

Industries Footwear • Manufacturing
Skills Design • Manufacturing processes and technologies • Trends and forecasting • Pattern making • Anatomical differences • Materials • Finishing techniques
Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Melbourne College of Textiles, TCF Resource Fund

Specialised Skills Training Fellowship

HUBERT SCHUSTER (Vicenza, Italy)

International Fellowship winner
Master jeweller from Vicenza, Italy and consultant to the Platinum Guild International and a member of the Board of the Goldsmith Masters' Commission travelled to Melbourne to teach 'Contemporary European Casting Technology Workshops', Melbourne and 'Contemporary European Casting Technology lecture; 1994 Casting Technology Workshops: Manufacturing Jewellery – Casting and Manufacturing Contemporary casting technologies for manufacturing
1993 – Filigree • Casting of items with

Industry
Skills

pre-set stones • Gold/platinum casting – union of two metals without soldering
• Casting mirror-finish objects without oxidising film • Platinum, gold and silver granulation

1994 – Casting of gold mixed with platinum or white gold • Casting hollow or semi-hollow pieces

Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation

Specialised Skills Training Fellowship

ANNA MINARDO (Italy)

International Fellowship winner
Italian Architect/Mosaicist from Rome taught:

1993 – 'A Month of Mosaic workshops'
1994 – 'Advanced Mosaic Workshop: Pavements'

1997 – 'In Minardo's Studio: Large Scale Wall Mural', Melbourne

Industry Architecture
Skills Translating design into mosaic • Colour blending • Fabrication • Installation • Materials • Techniques

Sponsors Palladio Foundation, Australian Bicentennial Multicultural Foundation, Holmesglen Institute of TAFE

1994

Specialised Skills Training Fellowship

PETER JAGO (Melbourne, Victoria)

Milliner, Designer and Teacher Kangan Institute of TAFE, studied in Italy and England

Industry Millinery
Skills Millinery designs and manufacturing equipment, materials – Leather, Felt and Straw Braid; Manufacturing techniques; Hat and Accessories Design • Technical skills related to block moulding and production of wool and fur felt • Sourcing fibres • Conservation techniques for maintaining antique fabrications of millinery

Sponsors Kangan Institute of TAFE, TCF Resource Fund

1995

Specialised Skills Training Fellowship

JALE YILMABSAR (Istanbul, Turkey)

International Fellowship winner
Renowned Ceramicist, travelled from Turkey to Melbourne to teach the 'Architectural Ceramic Workshops: Wall Murals' and 'Making an Income out of Your Art'; this Fellowship was designed and implemented as a catalyst for change

in the Ceramics/Tiling Industry seminar • Participated in the '8th National Ceramics Conference', Canberra

Industry Architectural Ceramics

Skills Design for large-scale projects • Painting techniques • Production of architectural ceramics – materials, equipment, installation

Sponsors Palladio Foundation, Australian Multicultural Foundation

Specialised Skills Training Fellowship

MICHAEL TOSCANO (Melbourne, Victoria)
Solid Plasterer, Toscano Plastering P/L, travelled to Venice, Italy to study 'Plaster Decoration' at European Centre for the Skills of Architectural Heritage

Industries Building and Construction • Heritage

Skills Stucco decorations • Surface treatments and finishes • Materials • Techniques • Modifying properties and setting • Tools and equipment • Prefabrication and free application • Special techniques • Styles and design

Sponsors Palladio Foundation, Australian Multicultural Foundation, Toscano Plastering P/L

Specialised Skills Training Fellowship

DAVID MULHOLLAND (Melbourne, Victoria)
Painter/Decorator, studied 'Painted Finishes: Built Environment' at Marmara University. Site visits to Yildiz and Dolmabahce Palaces and other heritage sites in Istanbul and environs

Industries Building and Construction • Heritage

Skills Painted finishes and coatings • Plaster and render conservation • Colour

Sponsors Allom Lovell and Associates, Henry Haymes P/L, Master Painters Australia (Vic)

1996

Specialised Skills Training Fellowship

DAVID YOUNG OAM (Canberra, ACT)
Conservation Architect, studied at ICCROM's 'International Course on Wood Conservation Technology' in Oslo, Norway

Industries Building • Construction • Heritage

Skills Wood conservation

Sponsors Palladio Foundation, Australian Multicultural Foundation, University of Canberra - Cultural Heritage Research Centre

Opera Foundation Fellowship

ROSS TURNER (Melbourne, Victoria)
Scenic Artist, studied Scenic Art at 'Associazione Italiana Scenografi, Costumisti, Arredatori (ASC)' and studios, Rome

Industries Entertainment • Art and Design

Skills Scenic Art including • Theatrical textiles • Equipment and materials • Pigments and mediums • Techniques – painting, textiles, construction, installation, transportation • Project management

Sponsors Palladio Foundation, Australian Multicultural Foundation, Opera Foundation

Specialised Skills Training Fellowship

DARYL WILKINSON
MARK POSTLETHWAITE (Melbourne, Victoria)
[Fellowship awarded to Daryl. Due to illness the Fellowship was taken up by Mark] Studied Art Direction at the 'Associazione Italiana Scenografi, Costumisti Arredatori', Rome

Industries Entertainment • Art and Design

Skills Art direction • Production design

Sponsors Palladio Foundation, Australian Multicultural Foundation

Specialised Skills Training Fellowship

JOY SINGH (Sydney, NSW)
Conservation Architect, studied 'Architectural Ornament' at the European Centre for the Skills of Architectural Heritage in Venice, Italy

Industries Building • Construction • Heritage

Skills Architectural drawing • Survey of the evolution of European ornament • Drawing and analysis focusing on origins, periods, construction and rhythm • Incorporating ornament into the contemporary built environment

Sponsors Palladio Foundation, Australian Multicultural Foundation

Specialised Skills Training Fellowship

SUSAN & BRUCE BURDICK (San Francisco, USA)
International Fellowship winners
Awarded as part of the Design Institute of Australia's 'Designer's Saturday' program. The Fellow spoke at an industry dinner and public/student lecture 'Multimedia: Multidisciplinary Approaches to Design Across Occupations'

Industries Multimedia • Design • Digital technology • Installation and applications

Skills Managing International Design Projects
Multidisciplinary approaches across design disciplines and the role of multimedia

Sponsor Gyro Interactive P/L

1997

Specialised Skills Training Fellowship

VINCENT SICARI (Sydney, NSW)

Conservation Architect, Heritage Group, Department Public Works and Services, studied under the Curator, 'Basilica San Marco', Venice and visited key Venetian sites to investigate Conservation Standards, Documentation, Workplace Practice, Technologies, Tourism Management

Industries Building • Construction • Heritage

Skills Managing a conservation project • Documentation and recording • Research and resource databases • Tourism management on site • Education and training • New services eg safety systems, sound reinforcement and design; electrical and hydraulics

Sponsors Palladio Foundation, Alitalia Airlines

Specialised Skills Training Fellowship

THOMAS CARSON (Melbourne, Victoria)

Stonemason, Director, Ad Astra Stone P/L, studied with the Curator, 'Basilica San Marco', Venice studying 'Stone in Architecture'

Industries Building • Construction • Heritage

Skills Carving • Copying sculpture and other forms of stonemasonry • Techniques of past Masters • Skills and knowledge gained from the past to restore, repair and conserve • Transpose skills into new work to consider stone within ornamentation and design contexts

Sponsors Palladio Foundation, Alitalia Airlines

Specialised Skills Training Fellowship

SIMON O'MALLON (Adelaide, South Australia)

Footwear Designer/Maker, studied at 'ARS Sutoria International Institute for Footwear Design and Modelling, Milan', Italy studios, Rome

Industries Footwear design, Manufacture

Skills Footwear design • Styling • Modelling • Pattern making • Construction • Finishing

Sponsors Palladio Foundation, Australia Council, Douglas Mawson Institute of TAFE

Specialised Skills Training Fellowship

DIANA BRANDT (Sydney, NSW)

Folk Artist, studied Lacquering (oriental), 'European Centre for the Skills of Architectural Heritage', Venice

Industries Craft • Design

Skills Lacquering (oriental) architectural and decorative items • Knowledge of styles characterised by lacquering • Materials • Techniques • Applications eg decorative items, architectural elements, furniture, frames, jewellery and fashion accessories

Sponsors Palladio Foundation, Porters Paints

Specialised Skills Training Fellowship

ANDREA MCNAMARA (Melbourne, Victoria)

Textile Designer investigated 'Textile Designers and Manufacturers Working Together – Creating Products for Niche Markets' in the UK. Awarded as part of the Victorian Design Awards

Industry Textile Manufacture

Skills Design of printed fabrics for niche manufacturing

Sponsors Department Industry Science, Resources, Textile TCF (Vic), John Coote, Feathers P/L

AGDA/ISS Fellowship in Association with Fuji Xerox Australia P/L

JOHN FROSTELL (Melbourne, Victoria)

Graphic Designer, attended ICOGRADA, 'Managing an International Design Event; Multidisciplinary Approach in Graphic Design Business Practice' in Uruguay

Industry Design • Event Management

Skills Managing an international design event • Multidisciplinary approaches to design

Sponsors Australian Graphic Design Association Foundation, Fuji Xerox Australia P/L

David Mitchell P/L Fellowship

BOB BENNETT MBE (Winchester, UK)

International Fellowship winner

Director, the Lime Centre, UK; heritage consultant. Bennett was the keynote speaker at 'The Great Lime Revival Conference', Melbourne

Industries Building • Construction • Heritage

Skills Lime-based products in architecture • Concrete • Render • Mortars • Slaking lime Applications – heritage and contemporary testing

Sponsor David Mitchell P/L

1998

AGDA/ISS Fellowship in Association
with Fuji Xerox Australia P/L

LUCY ELLIOTT (Melbourne, Victoria)

Graphic Design Manager, attended
'3rd International Conference: Design
Management', Amsterdam and studied
at selected design studios in London
including Wolff Olins

Industry Design Management
Skills Understanding the principles, elements
and applications of design management
Sponsors Australian Graphic Design Association
Foundation, Fuji Xerox Australia P/L

AGDA/ISS Student Fellowship

EVANGELINE THAI (Melbourne, Victoria)

Graphic Design Graduate who undertook
a three-month internship with Landor and
Associates, San Francisco

Industry Design
Skills Multidisciplinary approaches to design
Sponsors Palladio Foundation, Australian
Graphic Design Association Foundation

Furniture Industry Association of
Australia Fellowship

GARY FRENCHAM (Wairn Ponds, Victoria)

Architect, Furniture Designer and
Maker studied at National Design
School, 'Scandinavian Furniture:
Design, Production and Manufacture' in
Copenhagen, Denmark

Industries Furniture – Design • Manufacture
Skills Design • Form bending • Stacking •
Flat packing • Techniques for designing
furniture for mass production • Timber
selection • Finishing techniques
Sponsor Furniture Industry Association of Australia

Specialised Skills Training Fellowship

ROGER LAW (London, UK)

International Fellowship winner
Satirist, Ceramicist, Creator of 'Spitting
Image' productions, travelled to Melbourne
to conduct 'Rubbery Puppets – Model
Making and Animated Figures Workshop'

Industries Entertainment
Skills Flexible mould-making and casting •
Creating animated figures • Caricature
portrait drawing • Sculpting clay to
create a 3D model of the drawing • Latex
mould-making • Plaster casting • Finishing
techniques
Sponsor ISS Institute

Specialised Skills Training Fellowship

MARINO MORETTI (Orvieto, Italy)

International Fellowship winner
Master Italian Ceramicist, travelled
to Melbourne to conduct 'Maiolica'
workshops; exhibit at Makers Mark;
promote the 'Centre' in Orvieto *with Victor
Greenaway* as part of the **New Venture •
Exchange Program**

Industries Ceramic • Niche Manufacturing
Skills Approaches to design and manufacturing
focusing on maiolica • Selecting and
making the ceramic item • Glaze
preparation • Pigment selection • Dipping
and painting techniques • Brush selection
• Fibre choice eg squirrel • Brush
maintenance • Historical context and
theory • Kilns and firing
Sponsor Palladio Foundation

1999

Specialised Skills Training Fellowship

VICTOR GREENAWAY (Lakes Entrance, Victoria)

Master Ceramicist, travelled to the
'Centre' in Orvieto to set-up the facility for
education and training program; create
works for exhibition with **Marino Moretti
(Italy)** as part of the **New Venture •
Exchange Program**

Industries Ceramic • Niche Manufacturing
Skills Approaches to design and manufacturing
focusing on maiolica • Marketing • Niche
manufacturing processes • Materials and
equipment • Brush techniques • Pigments
Sponsor Palladio Foundation

2000

ISS Institute/TAFE Fellowship

ANTHONY BAILEY (Yarra Valley, Victoria)

Chef and Teacher at Swinburne University
of Technology (TAFE Division), studied in
Italy

Industry Food
Skills Professional kitchen management • Food
styling • Regional food production and
promotion of food • Product development
Sponsor State Training Board, Victorian Government

ISS Institute/TAFE Fellowship

PAUL BRAMLEY (Morwell, Victoria)

Painter/decorator teacher, Central
Gippsland Institute of TAFE, studied
'Wallpaper Hanging, Restoration,
Production and Reproduction

Industries Technologies' in England and USA
Skills Painting and Decorating • Interior Design
Wallpaper/coverings restoration • Paper
hanging skills • Historic colour analysis •
Murals • Technologies in producing and
reproducing wallpaper, such as digital
imaging
Sponsor State Training Board, Victorian Government

ISS Institute/TAFE Fellowship

UDO EICHELMANN (Melbourne, Victoria)

Chef and Teacher at William Angliss
Institute of TAFE, studied in France,
Germany and Italy
Industry Food
Skills Patisserie • French pastries • Gateaux
Surface decoration • Production and
finishing techniques • Advanced chocolate
and sugar work including figurines
Sponsor State Training Board, Victorian Government

ISS Institute/TAFE Fellowship

MARK O'ROURKE (Melbourne, Victoria)

Multimedia Designer and Teacher at
Victoria University (TAFE), studied in USA
Industries Information Technology • Design
Skills Vector-based web imaging • Digital video
production techniques • Production and
delivery suitable for broadband online
interactive environments
Sponsor State Training Board, Victorian Government

AGDA/ISS Fellowship in Association
with Fuji Xerox Australia P/L

PATRICK BAYLY (Perth, Western Australia)

Graphic designer conducted research/
interviews with a cross-section of studios
in the USA; attended the Sebol conference
Industries Information Technology • Design
Skills Researched the current trends in the USA
of the shift from traditional print based
media and communication to Web-based
product
Sponsors Fuji Xerox Australia P/L, Australian Graphic
Design Association Foundation

Master Builders Association of Victoria/
ISS Institute Fellowship

**LOUIS AND CORNEL VAN DER HEYDEN
(Mansfield, Victoria)**

Designer/Builders, owners Great Bear
Log Homes, attended the Canadian and
American Log Builders' Association in
Alberta, Canada in April 2001. Undertook
courses in 'Accelerated Log Building

workshop' and the 'Archicad Log Maker
Workshop'
Industry Building and Construction
Skills New and innovative building design and
construction techniques • Value-adding
to Victorian timbers • CAD design • Hand
hewing skills • Equipment
Sponsors Master Builders Association of Victoria,
Qantas Airlines

Overseas Travelling Fellowship

MARK WARD (Melbourne, Victoria)

Landscape Gardener, studied in Italy
specifically the Veneto region
Industry Landscape
Skills Heritage landscapes studying • Materials
used in horticulture • Management and
documentation of historic gardens •
Techniques • Design • Water features,
recycling water
Sponsors Palladio Foundation, The Queen's Trust
for Young Australians, Holmesglen TAFE,
Landscape Industries Association of
Victoria, Gardenridge Landscapes

Overseas Travelling Fellowship

APRIL PHILIPS (Melbourne, Victoria)

**[Originally awarded to Christopher
Gleeson who withdrew due family
matters and work commitments]**
Shoemaker, studied in the UK
Industry Footwear
Skills Various decorative processes associated
with the production of footwear •
Stamping and colouring leather • Paints –
characteristics and application techniques •
Leather carving eg line work, low and high
relief • Differentiating tools • Maintenance of
tools • Surface treatments eg metallic foil •
New technological advances in digital
image transfers to leather – hardware and
software • Reshaping leather • Finishing
Sponsor The Queen's Trust for Young Australians

2001

ISS Institute/TAFE Fellowship

LISA DUNN (Wodonga, Victoria)

Chef Instructor at Wodonga Institute of
TAFE, studied in Germany, France and USA
Industry Food
Skills Specialised training in sugar confectionery
and advanced chocolate techniques for
qualified and apprentice chefs, especially
those in rural areas
Sponsor ETTE, Victorian Government

ISS Institute/TAFE Fellowship

DARIO PIUBELLINI (Melbourne, Victoria)

Teacher wall and floor tiling, Holmesglen Institute of TAFE, studied in Italy

Industries Building • Construction • Tiling
Skills Working with porcelain tiles • Design • Technologies in fixing, cutting, laying, adhesives • Surface preparation • Maintenance
Sponsor ETTE, Victorian Government

ISS Institute/TAFE Fellowship

GARRY EDWARDS (Melbourne, Victoria)

Centre Manager, Automotive Body, Refinishing, Sheetmetal, Kangan Batman TAFE, studied in Italy, England, Holland and France

Industry Automotive
Skills Best practice and strategies in environmental waste management and supporting education and training programs for employers and employees within the Collision Repair Industry
Sponsor ETTE, Victorian Government

ISS Institute/TAFE Fellowship

JULIAN PRATT (Melbourne, Victoria)

Coordinator/Teacher, Furniture Programs, School of Design (TAFE), RMIT University, studied in Italy, Spain, Germany and UK

Industry Furniture
Skills Design and specific programs to train and update skills in the Furnishing Industry in the areas of • Cold foam production • Injection moulded plastic frames • Materials and tool development and substructures • Modern production processes and associated safety standards
Sponsor ETTE, Victorian Government

Victoria University/ISS Institute Fellowship

ERLING CHRISTOFFERSEN (Denmark)

International Fellowship winner

Architect, MAA (Royal Academy Fine Arts, Copenhagen; Denmark's Design School; apprentice diploma, cabinetmaker). Assistant Professor, 'Royal Academy; Associate Professor at Denmark's School of Design. Own practice since 1982 and partner in Design 134 since 1989; member of the Design Group SE. Conducted an Intensive Artisan in residence Program with apprentice cabinetmakers and joiners; designers and manufacturers; university and TAFE educationalists – 'Innovative Furniture Design and Manufacturing:

Producing More with Less Forum ©'; industry forum – 'Design Materials and Techniques: Scandinavian Furniture Workshop'; industry forum and speaker at AgIdeas conference; 'Sensational Screens Exhibition at Melbourne Museum'.

Industries Furniture Design • Manufacturing
Skills Design • Construction techniques • Flat pack and/or 'stackable' • Combining diverse materials • Collaborative approaches to furniture production – designer/manufacturer • Design for export
Sponsor Victoria University (TAFE)

Master Builders Association of Victoria/ISS Institute Fellowship

DAVID LONG (Melbourne, Victoria)

Landscape Gardener, The Right Branch, studied in the UK, USA and Scotland

Industries Landscape Gardening • Stone
Skills Dry stone walling focusing on • Design • Construction techniques particularly of walls over 1–2 metres in height • Different types of stone and their selection applied in new construction of walls in both commercial and domestic environments and restoration of historical works
Sponsor Master Builders Association of Victoria

2002

ISS Institute/TAFE Fellowship

ALISTAIR MCCOSH (Portland, Victoria)

Management and Industry Training Officer, South West Institute of TAFE, visited manufacturers and education institutes in the UK, Germany and France under his study program

Industry Environment: Renewable Energy
Skills Leading edge technology in wind energy manufacturing including manufacturing of rotor blades • Renewable energy systems
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

WENDY HALLINAN (Mildura, Victoria)

Senior horticulture teacher, Sunraysia Institute of TAFE, studied in California, USA including the Helix irrigation district

Industry Environment: Horticulture
Skills Land and Water Management. Studying sustainable horticulture • Water management and irrigation technology including water wise gardening, plant selection, landscape design, plant adaptations and regional salinity issues
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

WILLIAM PRESSLOR (Melbourne, Victoria)

Program Manager, Furnishing Industry Training Centre, Holmesglen Institute of TAFE, studied furniture design and manufacturing and equipment in Italy, Germany and other European countries

Industry Skills

Furniture
High volume CNC production and training applied to furniture design for manufacturing

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

VIRGINIA HARRISON (Melbourne, Victoria)

Teacher, School of Fashion and Textiles RMIT University, studied in Italy and Belgium

Industry Skills

Textiles
Interaction between design, computer aided design and textile software for Industrial Jacquard Loom Weaving for manufacturing, such as the automotive and furniture industries

Sponsor

OTTE, Victorian Government

Victoria University/ISS Institute Fellowship

MARC KRUSIN (Milan, Italy)

International Fellowship winner

Following the highly successful Victoria University/ISS Institute Fellowship's 'Sensational Screens' program with Erling Christoffersen, a Fellowship was awarded to Marc Krusin in furniture design and manufacturing. The program again will focus on design, construction techniques and materials, collaborative approaches between designers and manufacturers including apprentices, TAFE teachers and university lecturers

Industry Skills

Furniture Design and Manufacture
Outdoor furniture – Construction techniques and using integrated design solutions; communication skills • Prototyping • Design for export

Sponsor

Victoria University (TAFE)

2003

ISS Institute/TAFE Fellowship

JOHN CAWLEY (Melbourne, Victoria)

Manager, Centre for New Manufacturing, Swinburne University of Technology (TAFE), studied in France, Germany and the UK.

Industry Skills

Manufacturing Industry
New and emerging technologies such as micro and nanotechnology, mechatronics and virtual reality design and simulation

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

GABRIELLE FOUNTAIN (Melbourne, Victoria)

Program Development Manager, Biomedical Science, Holmesglen Institute of TAFE, studied in the USA, UK and Singapore

Industry Skills

Biotechnology
'Bioinformatics' and technical training in methodologies and instrumentation and their application in the competitive biotechnology market such as medicine and agriculture

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

PETER OWENS (Melbourne, Victoria)

Course Leader, Composites, Kangan Batman TAFE, studied in the USA

Industry Skills

Aerospace
Processes, such as metal-to-metal bonding in aerospace, automotive and marine industries • Materials • Equipment

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

KYLIE SMYTH (Shepparton, Victoria)

Food Industry Trainer, Goulburn Ovens TAFE, studied in France and the UK

Industries Skills

Food • Cheese Manufacturing
Research and development into techniques, processes and the manufacture of mould ripened cheese • The environmental impacts in the manufacture of mould ripened cheese • Packaging

Sponsor

OTTE, Victorian Government

ISS Institute/OTTE (Design) Fellowship

CLAUDIO TOMASELLI (Italy)

International Fellowship winner

Director, Design and Development, Texcontrol, an associated company of Bennetton program included the 'Deconstruct and Reconstruct' workshop hosted at RMIT University. There were three workshops – one with students, the others with designers, industry and educationalists. The focus was on integrating design, innovative use of

materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice. This Fellowship was awarded in association with 'Veneto in Victoria'.

Skills Textiles • Design/redesign • Trends • Technologies applied to produce colour and texture variations eg screen printing • Strategies in gaining inspiration from the natural environment towards developing a 'style/theme'

Sponsor OTTE, Victorian Government

ISS Institute/OTTE (Design) Fellowship

HUBERT SCHUSTER (Italy)

International Fellowship winner

Director, Jewellery Technology Institute, Research, Development and Transfer of Technology (ISS Institute Fellow '93 and '94). The program included 'Jewellery: Wearable Sculpture' workshops hosted at Box Hill Institute. There were three workshops – one with students, the others with designers, industry and educationalists. The focus was on integrating design, innovative use of materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice.

Skills Technologies including • Granulation • Sourcing and designing with available materials such as fencing wire, ceramic tile

Sponsor OTTE, Victorian Government

Victoria University/ISS Institute Fellowship

JOHN CRADDOCK (Melbourne, Victoria)

Program Manager, Sign Industry Training Department, Victoria University (TAFE Division), studied in the UK

Industry Signage/Neon Technology

Skills Technology and equipment related to luminous tubes • Materials used in construction • Neon shop design • Vacuum system • Bombarding • Filling, testing and aging

Sponsor Victoria University (TAFE)

2004

The Pratt Foundation/ISS Institute Overseas Fellowship

BEN DETHRIDGE (Melbourne, Victoria)

Master Painter, visited sites and studied in USA and Italy

Industries Painting • Decorating

Skills Advanced painting skills such as graining, marbling, colour-washing, panelling, faux and aging finishes • Materials and equipment • Surfaces • Finishing techniques • Pigments and mediums • Colour manipulation and blending

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute Overseas Fellowship

STUART READ (Sydney, NSW)

Heritage officer, NSW Heritage Office, studied in Spain

Industry Heritage

Skills Historic gardens and parks • Water management • Design and plant palette selection and management and maintenance practices • Sources of Funding, budget control • Management documents • Public visitation, tourism issues

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute Overseas Fellowship

GREG PETERS (Canberra, ACT)

Proprietor of Patinations, studied in the United Kingdom, Finland and USA

Industry Furniture

Skills Furniture conservation and restoration • Treatment of clear coatings and finishes for furniture and architectural timbers • Conservation science and the treatment of finishes for furniture/timber

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute Overseas Fellowship

COLIN TREMBATH (Ballarat, Victoria)

Coordinator, Joinery and Furniture, University of Ballarat (TAFE), studied in Italy

Industries Building and Construction • Heritage

Skills Traditional joinery techniques, materials and equipment in areas such as windows, doors and staircases and the related areas of carpentry. Transposing these capabilities into contemporary applications

Sponsor The Pratt Foundation

ISS Institute/TAFE Fellowship

PHILIP ASHLEY, NEIL GORDON, FRANKLIN WILBRINK & BRYON STANLEY (Victoria)

Undertook joint Fellowship, Lecturers/Senior teachers RMIT University, studied in Germany, Denmark, Switzerland and Italy

Industry Furniture Manufacturing
Skills Design and manufacturing skills focusing on CNC manufacturing technologies in modern production techniques equipment and design. Recovery and reuse of 'waste' materials related to timber
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

RICK MITCHELL (Melbourne, Victoria)

Course Coordinator, Teacher, Victoria University (TAFE), studied in the UK, USA and New Zealand

Industry Marine
Skills Boat building and repairing • Traditional and contemporary boat-building skills including glass reinforced plastic, aluminium and steel as well as traditional timber including chemical processes related to vacuum infusion of boat hulls
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

JOHN VAN CLEEF (Geelong, Victoria)

Head of School, Gordon Institute of TAFE, studied in the USA

Industries Environment • Sustainability
Skills Renewable energy technology specifically related to Fuel Cell Technology including installation, maintenance, repair and safe handling methods
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

DAVID WILSON (Melbourne, Victoria)

Program Coordinator, Holmesglen Institute of TAFE, studied in Italy

Industry Engineering
Skills Computer Numeric Controls (CNC) base metal fabrication specifically in • Laser cutting machines • Turret punches • Press brakes in the fabrication trade related to robotics and interacting with individual machine software
Sponsor OTTE, Victorian Government

ISS Institute/Italy (Veneto) Fellowship

RICHARD DOBSON (Melbourne, Victoria)

Chef instructor William Angliss Institute of TAFE, studied in the Veneto region, Italy

Industry Food
Skills Sustainable organic food production and preparation • Production and processing technologies and their relationship to 'slow food' • Training chefs in understanding the benefits and nutritional characteristics of

organic food
Sponsor International Division, Victorian Government

ISS Institute/Italy (Veneto) Fellowship

IAN MULLER (Wangaratta, Victoria)

Teacher, Goulburn Ovens TAFE, studied in the Veneto region, Italy

Industry Wine
Skills Viticulture • Understanding the relationship between traditional viticulture practices and production of superior quality wines • Application of the latest R&D innovations in the production of Italian style wines • Knowledge associated with the latest in varieties and clonal research
Sponsor International Division, Victorian Government

RMIT University/ISS Institute Overseas Fellowship

VICTORIA VERSTEEGE

LINDSEY GLOVER (Melbourne, Victoria)

Program Coordinator/Teacher RMIT University, studied in France and the UK.

Industry Interior Decoration and Design
Skills Colour • Application in learning and professional practice encompassing environment and sustainability which focuses on Interior Decoration and Design
Sponsor RMIT University

ISS Institute/Victorian Government Design Fellowship

ARTURO DELL'ACQUA BELLAVITIS (Milan, Italy)

International Fellowship winner

Architect. Head of Design, Milan Polytechnic, Italy. Conducted workshops hosted at RMIT University in the Furniture Department. He conducted the 'Ingenious Light: Architectural Lighting Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. The focus was on integrating design, innovative use of materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice.

Industries Industrial Design • Manufacturing
Skills Industrial design – Interior lighting • Design is 'problem solving' • The importance of design to us as human beings (lifestyle and emotions) and the environment in which we live and work • The necessity of designing for a sustainable future including using renewable energy resources • Strategies which need to be implemented when dealing with either large or small companies to maximise the benefit for the

<p>designer, manufacturer and the client • Determining ways to respond to changing market needs • Working in collaboration from concept to prototype/manufacture along the Supply Chain.</p> <p>Sponsor OTTE, Victorian Government</p>	<p>forming timber veneers into objects, such as chairs, stools and tables with a focus on value-adding to Victoria's timbers</p> <p>Sponsor Victoria University (TAFE)</p>
<p>ISS Institute/Victorian Government Design Fellowship</p> <p>AMBER HISCOTT (Wales) International Fellowship winner Amber's work spans architectural contexts where glass is the predominant medium, whether it is spanning expansive wall spaces or used in landscape settings as sculptural pieces. Conducted the 'Architectural Glass Workshops' and the 'Architectural Glass Art' public lecture hosted at Holmesglen Institute of TAFE's Glass Department. There were three workshops – one with students, the others with designers, industry and educationalists. The focus was on integrating design, innovative use of materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice</p> <p>Industries Building and Construction • Glass Skills Large scale – design a large glass architectural feature made up of modular panels, then to select one of the panels and construct it in scale 1:1. The panel is to be attached to a freestanding display frame • Suitable for an internal or external architectural setting • To be attached to the fabric of the building/structure • The large architectural feature may be decorative or serve functional purposes</p> <p>Sponsor OTTE, Victorian Government</p>	<p>ISS Institute Overseas Fellowship</p> <p>STUART GRAVES (Western Australia) Lecturer, Challenger TAFE, studied in the UK and USA</p> <p>Industry Engineering Skills Welding and fabrication of titanium, titanium alloys or exotic materials used for cryogenic applications • Materials • Equipment</p> <p>Sponsor DEST, Commonwealth Government</p>
<p>Victoria University/ISS Institute Fellowship</p> <p>ERLING CHRISTOFFERSEN (Denmark) International Fellowship winner Erling was the recipient of the inaugural '01 Victoria University/ISS Institute Fellowship. He is Associate Director at Denmark's Design School, Copenhagen and founder of the renowned Danish studio. 'Moulded Timber Veneer Seating Workshop'. There were three workshops – one with students, the others with designers, industry and educationalists. The focus was on integrating design, innovative use of materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice.</p> <p>Industry Furniture Skills Moulded veneer – which encompasses</p>	<p>ISS Institute Overseas Fellowship</p> <p>NIGEL LEWIS (Portland, Victoria) Bridge and wharf carpenter, studied in Italy, UK, Germany, Ukraine and France</p> <p>Industries Building • Construction • Heritage Skills Traditional timber building conservation techniques • Scribing techniques in traditional carpentry • Laying of timber (the heartwood) • Use of traditional tools in sawing and hewing • The recording of buildings</p> <p>Sponsor DEST, Commonwealth Government</p> <p>ISS Institute Overseas Fellowship</p> <p>PETER MOORE (Queensland) Leading Vocational Teacher, Logan Institute of TAFE, studied in Italy, UK, Scandinavia, Germany and Netherlands</p> <p>Industry Engineering Skills Refrigeration and air conditioning systems specifically using carbon dioxide and hydrocarbon • Installation and commissioning, maintenance, diagnostics and repair</p> <p>Sponsor DEST, Commonwealth Government</p>
	<p>ISS Institute Overseas Fellowship</p> <p>ROBERT MOORE (Australian Capital Territory) Technical and Environmental Manager, Master Builders Association studied in Japan and Europe</p> <p>Industries Building • Construction • Energy Skills 'Alternative Energy Systems' in the Residential Construction Industry, particularly in relation to solar energy and the design and construction of domestic dwellings in respect to generating hot air distribution in association with thermal mass storage</p> <p>Sponsor DEST, Commonwealth Government</p>

ISS Institute Overseas Fellowship

PATRICK TRAINOR (South Australia)

General Manager, Coonawarra Gold Facilities P/L, studied in Italy, France, Germany, the USA and the UK

Industry Skills

Wine
Dry separation process related to grape seed and grape skins and storage requirements • Cold-pressing of seed to obtain oil for large-scale production • Techniques to refine grapeseed oil

Sponsor

DEST, Commonwealth Government

ISS Institute Overseas Fellowship

JOHN TURNER (Tasmania)

Teacher, Drysdale Institute, studied within organisations and training institutes in Italy
Commercial Cookery • Hospitality
Effective and safe use of blast chillers and freezers in commercial cookery including
• Study of theory and practice of this emerging technology, and the development of further skills to use this technology in all areas of food production • Understanding of cookery training offered in Europe, and comparison of delivery methodology

Sponsor

DEST, Commonwealth Government

ISS Institute Overseas Fellowship

ATHOL WARK (Northern Territory)

Lecturer, Charles Darwin University, studied in the USA

Industry Skills

Commercial Cookery
Value adding to regional produce related to 'Wild Foods of Australia' • Adapting regional products into a culinary uniqueness and a fusion of flavours using ancient product with today's cookery methods • Ways to make 'wild food' ingredients (fruit, meat and vegetable) viable and sustainable in today's marketplace

Sponsor

DEST, Commonwealth Government

ISS Institute Overseas Fellowship

RICHARD WHITE (New South Wales)

Senior Head Teacher, Granville College, undertook a study program at the European Centre, Venice, Italy

Industry Skills

Painting and Decorating
Conserving original painted decoration that has survived intact, or has been revealed by the removal of subsequent layers of paint/wallpaper including skills for

diagnosis, evaluation and documentation of original painted decoration • Selection of correct remedial and conservation methodologies

Sponsor

DEST, Commonwealth Government

2005

ISS Institute/Victorian Government Design Fellowship

RENATO BALESTRA (Rome, Italy)

International Fellowship winner

Internationally renowned Fashion Designer from haute couture to ready-to-wear, Balestra has his studio based in Rome, Italy. He travelled to Melbourne to conduct the series of 'Fashion Design Masterclass Workshops'

Industry Skills

Fashion
Working in collaboration in 'Design Teams' from concept to garment production • Determining themes • Research • Branding • Fashion illustration • Garment to be made in Size 10 for modelling on the catwalk • Strategies and processes in setting the theme • Styling

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

NICK VAN DIEMEN (Melbourne, Victoria)

Advanced Skills Teacher, Holmesglen Institute of TAFE, studied in Germany, Holland and England

Industries Skills

Building and Construction
Preparation and laying techniques of PPS (Permeable Paving Systems) • Studying the specifications and design and of PPS • Obtain data on the structural integrity of PPS • Product selection • Gaining knowledge of the various applications and maintenance and longevity of PPS

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

ROGER DRISCOLL (Shepparton, Victoria)

Meat Industry Trainer, Goulburn Ovens Institute of TAFE, studied in the USA

Industry Skills

Meat
Knowledge of fast changing international attitudes to animal welfare in farming and meat processing environments • Translation of this knowledge into materials suitable for a structured approach to the training of animal handlers and stockpersons • Quality assurance systems

Sponsor

OTTE, Victorian Government

ISS Institute/TAFE Fellowship

TINA GUGLIELMINO (Melbourne, Victoria)

Programs Manager, RMIT School of Fashion and Textiles, travelled to Italy to study at Renato Balestra's design studio and educational institutions in both Italy, and Paris, France

Industry Fashion
Skills Fashion couture design best practice • Specialist techniques including beading, draping, high quality construction techniques

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

BRENDAN LETHLEAN (Bendigo, Victoria)

Trainer (Food), Bendigo Regional Institute of TAFE, studied in the USA

Industry Food
Skills Skills and knowledge to assist in extending regional organic produce's shelf life • Value adding to our regional organic produce • Improving the farming systems of regional organic produce

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

MANDY PENTON and ROSANNA GIACOMINI (Melbourne, Victoria)

Senior Educator and Fashion Educator, Kangan Batman TAFE travelled to Italy to study at Renato Balestra's design studio and educational institutions

Industry Fashion
Skills Draping/mouflage • Fabric enhancement – wools, cotton, silk and linen • Italian training models transposed towards building the Australian Fashion Industry – design and business

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

MICHAEL GOSS & ROSETTA DI GIANGREGORIO (Melbourne, Victoria)

TAFE Manager and TAFE Teacher, RMIT (TAFE), School of Design, studied in Singapore, Dubai, London, Greece and Italy

Industry Building Design Industry
Skills Skills training in Building Information Modelling and management (this includes design variations, energy performance and calculations, site management and localised impact projections)

Sponsor OTTE, Victorian Government

ISS Institute/Italy (Veneto) Fellowship

ARNOLD ROWNTREE (Melbourne, Victoria)

TAFE Teacher, Project Officer, Swinburne TAFE, studied in the Veneto region, Italy, Germany and the USA

Industry Engineering
Skills Engineering, design, advanced manufacturing and the skills training associated with Powder Injection Moulding (PIM) • Materials selection • Quality assurance

Sponsor International Division, Victorian Government

Victorian Government/
ISS Institute Student Fellowship

JAYE WEARNE & LIORA SHULMAN (Melbourne, Victoria)

Students, Box Hill Institute of TAFE/ RMIT University (TAFE), studied at Renato Balestra's design studio, Rome, then in other fashion houses in Milan. Jaye and Liora participated in the Renato Balestra 'Masterclass Fashion Workshops'. Their garments were selected as the winning designs by the CEO of Balestra fashion house at the 'Fashion Exposed' Melbourne Exhibition Centre fashion parades in October 2005

Industry Fashion
Sponsor OTTE, Victorian Government

National ISS Institute Overseas Fellowship

SIMON BROWN (Brisbane, Queensland)

Stonemason and Teacher at Brisbane North Institute of TAFE, studied in the USA and England

Industries Building • Construction
Skills Using natural stone materials • Carving and detailing • Masonry and construction Letter cutting • Sculptural practices • Restoration techniques • Materials selection • Finishing techniques

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

VIRGINIA REID (Deniliquin, New South Wales)

Cheese Maker and Teacher, studied in France

Industry Food
Skills The historical and regional understanding behind culture usage in artisan soft cheese making • Scientific technologies behind flavour development using mesophile and thermophilic cultures • Environmental and hygiene factors affecting culture ripened

soft cheeses during maturation • Sensory appreciation of culture ripened cheeses • Packaging and marketing of high quality artisan cheeses

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

OWEN DONOVAN (Perth, Western Australia)

Forester, studied in France, Spain and Portugal

Industries Conservation • Forestry

Skills Alternative methods of fire control in a pine plantation environment • Fire control systems for plantation • Wild fire suppression systems • Traditional forest silviculture in managed pine forests

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

TERENCE LEAN (Hobart, Tasmania)

Shipwright at Wooden Boat Centre, Tasmania, studied in New Zealand and Norway

Industry Boat building

Skills Traditional wooden boat-building methods • Lofting methods for traditional wooden boat • Application of wooden materials and teaching to preserve and restore historically important boats • Teaching methods for traditional wooden boats • Applying traditional boat-building technologies into new craft

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

SIMON DALY (Australian Capital Territory)

Luthier, String Instrument Workshop, studied in the UK and Italy

Industries Music • Heritage

Skills Advanced restoration techniques for 'violin family' instruments including • Plaster casting for arching corrections and patches • Matching old varnish finishes • Same grain peg hole bushing • Neck grafts • Rib repairs • Finishing techniques

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

LINDY SANDO & VAUGHAN TAYLOR (South Australia)

Architectural glass artists, designers and fabricators, studied in the UK, Spain and Germany

Industries Building and Construction

Skills Contemporary techniques in architectural

glass • Glass lamination – design and manufacture • Complementary techniques and innovations • Integration of art and architecture into new architectural glass products • Developing business collaborations

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

KAREN O'REILLY (Melbourne, Victoria)

Metal Fabricator and Teacher, studied in the USA and Canada

Industry Engineering

Skills Knowledge of pipe materials and fittings • Knowledge of pipe fabrication techniques • Pipeline designing considerations • Knowledge of pipeline installation techniques • Knowledge of safety requirements

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

GLENN SCHIPP & DAMON GORE (Darwin, Northern Territory)

Aquaculture scientists, Darwin Aquaculture Centre, studied in the USA, Israel, Netherlands, Southern Scandinavia

Industry Aquaculture

Skills Design, planning and implementation of recirculation technology for marine aquaculture • Waste removal and re-use from marine recirculation aquaculture systems • Use of ozone to improve the operating efficiency of high-density marine recirculation aquaculture systems

Sponsor DEST, Commonwealth Government

The George Alexander Foundation/
ISS Institute Fellowship

WARWICK JOHNSTON (Melbourne, Victoria)

Project Development Engineer, Going Solar, studied in Germany, Spain and Singapore

Industry Sustainable energy

Skills Combination and integration of solar thermal energy collector to relevant cooling/heating device • Understanding of quantity of solar energy required to produce air cooling/heating, steam, and/or water heating/cooling output demanded • Selection of appropriate cooling technology • System performance measurement and information dissemination

Sponsor The George Alexander Foundation

Leslie M Perrott/ISS Institute
Overseas Fellowship

TIMOTHY HUBBARD (Port Fairy, Victoria)

Heritage architect and planner, owner Heritage Matters P/L, studied in the USA, UK, France and Italy

Industries Transport • Heritage • Tourism
Skills Identification and management of historic roads • Interpretation of historic roads, especially as tourist assets • Coordination and development of trades association with historic roads
Sponsor The Perrott Family

2006

ISS Institute/Victorian Government
Design Fellowship

STEVEN HARKIN (London, England)

International Fellowship winner

Internationally renowned accessories designer and manufacturer whose studio is based in London, UK. Harkin travelled to Melbourne to conduct the 'Essential Bags Masterclass Workshops', 'Essential Bags Student Workshop' and participate as a speaker in the 'Agldeas' conference

Industries Accessories • Fashion
Skills Working in collaboration in 'Design Teams' from concept to production • Overview of accessories within the fashion industry • Steven Harkin's career path as an example of a multidisciplinary approach to design and production • Context and concept development • Working in a Design Team for creating a prototype bag • Design • Pattern making • Materials selection, such as leather • Construction and finishing techniques

Sponsor OTTE, Victorian Government

RMIT University/ISS Institute
International Fellowship

DR WULF-PETER SCHMIDT (Cologne, Germany)

International Fellowship winner

Vehicle Environmental Engineer, Ford Europe. Dr Schmidt, PhD in environmental engineering, and works in the field of recycling and Life Cycle Assessment. He has published over 60 papers. He has been with Ford-Werke AG since 1997, working first-hand in the field of LCA Design for Environment and Environmental Strategy. He is a technical specialist in vehicle recycling research projects, design for the environment, LCA and LCC, cross-carline product and product development support. His areas of specialisation are • Design for environment • LCA • Life

cycle management • Sustainable vehicle design • Vehicle recycling • Integrated product policy (IPP). Dr Schmidt belongs to the Editorial Board of 'The International Journal of Life Cycle Assessment'. Dr Schmidt conducted a workshop, public lecture, research and student seminars and participated in the ISS 'Skills Network Australia Think Tank. Design+Sustainability+Manufacturing'

Industries Industrial Design • Manufacturing Sustainability • Automotive

Skills Industrial design • Overview about the tools to assess economic, environmental and social aspects of products/processes, within economies and purchasing • Determining what tool is best to use for what question/situation • Where there is an environmental business case • What an environmental business case is • Pros & cons of an efficiency approach • Designing an environmentally favourable product with high durability and modularity • Design a product based on service ideas • The consumer's perspective • Definitions, historical roots, current legislative frame work (Europe), opportunities for companies, consumers and the environment

Sponsor RMIT University

The Pratt Foundation/ISS Institute
International Fellowship

BOB BENNETT (Winchester, England)

International Fellowship winner

Bob Bennett MBE, Director, The Lime Centre, Winchester. Bennett is a Master Artisan specialising in lime-based building products applied in heritage and contemporary architectural settings. He travelled to Victoria to deliver two programs; the first week in Melbourne where he was the keynote speaker at a two-day conference, taught two workshops and participated in the ISS Institute's 'Skills Network Australia Think Tank: Heritage'. The second week, he was in Mildura as the keynote speaker at the inaugural 'Sustainability Festival'. During the Festival he designed and constructed a cob building, deliver a public lecture and met with local industry, education/training providers and government representatives to identify skill deficiencies which further developed and built on his Fellowship

Industries Building and Construction • Heritage • Sustainability

Skills Techniques, materials and application of lime-based building products in heritage and contemporary applications in architectural settings

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute
Overseas Fellowship

JESSICA McKELSON (Melbourne, Victoria)

Senior Keeper, Animal Division, Melbourne Zoo studied in Indonesia

Industries Conservation • Zoo
Skills Breeding management and conservation • Balancing in-situ and ex-situ conservation • Designing species recovery programs • Species conservation and conservation genetics • The role of zoos in conservation Population viability analysis • Field research

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute
Overseas Fellowship

NICK HADDOW (Tasmania)

Cheese Maker, Owner Bruny Island Cheese Company, travelled to Japan, USA

Industry Food
Skills Manufacture of traditional cheese varieties within the regulations and conditions of a 'new world' environment • Research innovative packaging options for traditional cheese production and their application for Australian specialist cheese makers • Marketing, branding and promotion of Australia's traditional cheeses to improve their competitiveness in the local and international marketplace • Development of cheese maturation facilities which replicate a traditional environment • Production of unpasteurised milk cheese in new world countries and the quality assurance process required for its safe manufacture

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute
Overseas Fellowship

SIDONIE CARPENTER (Brisbane, Queensland)

Landscape Designer, Owner Sidonie Carpenter Landscape Design studied in Singapore, USA and Canada

Industries Landscape Architecture • Environment
Skills Roof garden design and construction/ species/growing mediums/maintenance Vertical garden design/construction/ maintenance • Species selection for extreme exposure to elements and environmental benefits of rooftop gardens • Construction techniques for food production space • Retrofitting rooftop and vertical gardens

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute
Overseas Fellowship

DON SCOTT (Melbourne, Victoria)

Bricklaying Teacher, Holmesglen TAFE, studied in the United Kingdom and Italy Building and Construction • Heritage The range of causes of rising damp • Effect and treatment of salt attack • The importance of traditional masonry construction methods and materials in heritage buildings

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute
Overseas Fellowship

ANTHONY (TONY) THAKE (Ballarat, Victoria)

Horticulture Teacher, University of Ballarat, studied in the United Kingdom and France

Industries Horticulture • Environment • Heritage
Skills Practical ability to carry out restoration works • Higher level skills to sensitively maintain heritage gardens • Project work to link the planning with the practical restoration works • Environmental change affecting restoration works

Sponsor The Pratt Foundation

National ISS Institute Overseas Fellowship

KATE KENNEDY (Melbourne, Victoria)

Clothing designer, studied in the USA and Germany

Industries Apparel • Textiles
Skills How to capture 3 dimensional (3D) body data • Extract body measurement statistics from 3D data • Create 2 dimensional (2D) pattern blocks from the 3D data • Develop methodologies to create size grade profiles that best match anthropometric body profiles

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

PAUL LENNARD (Tasmania)

Commercial Cookery and Wine Educator, Drysdale Institute of TAFE, studied in Italy Cookery • Wine

Industries High-level wine and food education in regional Australia • Including Italian cuisine in the Australian 'hospitality training package' • The foundations and ethos behind developing a regional cuisine • Developing a wine and food culture • Cool climate produce • Value-adding and marketing

Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

BRIAN SHANNON (Brisbane, Queensland)

Floriculturalist, Owner Shannon Roses, studied in the Netherlands, Spain and Israel

Industries Horticulture • Sustainability
Skills Water use efficiency • Environmental sustainability • Production management • Profitability • Innovative technologies • Automated greenhouse systems • Productivity
Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

REBECCA BULCRAIG (Western Australia)

Printmaker, studied in the United Kingdom

Industries Printing • Wallpaper
Skills Screen-printing, hand-printing, block-printing and flocking for wallpaper • Technical information on inks and papers • Translating digital imagery onto wallpaper
Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

TONY HARDING (Northern Territory)

Automotive lecturer, studied in United Kingdom

Industry Automotive
Skills Service, maintenance and repair of modern fuel efficient high speed, high output, small capacity European diesel engines • Current best practices in training and delivery methods used to present modern automotive technology
Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

JOSEPH BAGNARA (Adelaide, South Australia)

Tiling lecturer, TAFE SA, studied in Italy

Industry Tiling
Skills Terrazzo floors • Design • Manufacturing process, material selection, raw materials • Techniques for placing, cutting, grouting and polishing of terrazzo floors • Tools and equipment used to construct terrazzo floors • Restoration of existing floors
Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

ANDREW BAKER (New South Wales)

Farmer, Pambula Rock Oysters, studied in France

Industries Farming • Marine

Skills Farming techniques for heavy rainfall • Product readiness • Harvesting, storage and packaging techniques
Sponsor DEST, Commonwealth Government

National ISS Institute Overseas Fellowship

GRANT DALY (Canberra, ACT)

Director Education and Training, Master Builders Association, studied in the UK and France

Industry Building and Construction
Skills Prefabricated housing encompassing • Design • Building materials and techniques • Low cost housing • Multi-level constructions • Environmental and sustainability (recycling) • Portability • Cost structures • Affordability • OHS • Training solutions
Sponsor DEST, Commonwealth Government

ISS Institute/TAFE Fellowship

GEOFF THOMAS (Melbourne, Victoria)

Teacher, International Trade, RMIT University TAFE, studied in Vietnam

Industries Business • Operations
Skills Develop international distribution networks • Build international client relationships and business networks • Evaluate international market opportunities • Manage international marketing programs • Manage and Conduct international purchasing • Manage global freight operations • Systems and processes
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

AMITA IYER (Melbourne, Victoria)

Senior Educator, Engineering, RMIT University (TAFE), studied in the USA

Industry Engineering
Skills Design • Manufacturing techniques of squeeze casting – processing variables, such as die temperature, applied pressure, pouring temperature, surface finish, die life and heat treatment
Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

MILES MENEGON & STEFAN SCHUTT (Melbourne, Victoria)

Project Managers, Teachers, Victoria University (TAFE), studied in the USA

Industries Information Technology • Education

Skills Technical design and development of new generation 'Web 2.0' online education tools • Web-based social networking • Community engagement on the web • Intersection of creativity, cognition and software tools • Effects of 'Web 2.0' technology on social networks

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

LEIGH TAIG (Shepparton, Victoria)

Manager, Horticulture, Goulburn Ovens TAFE, travelled to Holland, United Kingdom, France

Industries Horticulture • Environment

Skills Collect and record data for crop registration of a variety of crops • Physiology and manipulation of the growing plant and its relationship to number, size and quality of fruit and other products • Techniques and technologies and the ability to evaluate and adapt to Australian growing environments • Role of nutrients and their affect on number, size and quality of fruit and other products

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

STEPHEN PINNUCK (Shepparton, Victoria)

Food Industry Trainer, Goulburn Ovens TAFE, studied in North America and Germany

Industry Baking

Skills Science and historical understanding behind the manufacture of sour dough • Techniques and processes in the manufacture of sour dough • Health benefits of sourdough breads • Use of organic ingredients and processes • Beneficial bacteria • Healthy sour dough culture • Alternative baking additives • Fermented breads with beneficial microbial culture

Sponsor OTTE, Victorian Government

ISS Institute/TAFE Fellowship

COLIN STRAUB (Melbourne, Victoria)

Teacher, Northern Melbourne Institute of TAFE, studied in Germany, Netherlands

Industries Horticulture • Environment • Floristry

Skills New design skills and techniques • Design skills to utilise new and non-traditional horticulture materials • Sustainability of the industry's water usage • Waste disposal • Design application of new floral sundry products

Sponsor OTTE, Victorian Government

ISS Institute/Italy (Veneto) Fellowship

SANDRA VAZZOLER (Murchison, Victoria)

Cheese Maker, Winery Operator, Teacher National Centre for Dairy Education, Goulburn Ovens TAFE, studied in the Veneto Region and other Italian regions

Industries Food • Dairy

Skills Sustainability of small-scale production of cheeses • Raw milk cheese production • Regional varieties of traditional cheese production • Marketing and branding – value-adding to regional produce (dairy/cheese)

Sponsor International Division, Victorian Government

2007

The Pratt Foundation/ISS Institute Overseas Fellowship

MATTHEW DUNN (Sydney, NSW)

Shipwright, Australian National Maritime Museum, studied in the USA

Industry Maritime

Skills Timber and composite ship and boat construction, restoration and conservation • Restoration of bright work (varnish) on heritage and modern vessels • Fitting out, hatch, skylight and deck fitting design, aesthetics and watertight integrity

Sponsor The Pratt Foundation

The Pratt Foundation/ISS Institute Overseas Fellowship

NIC GOWANS (Skipton, Victoria)

Horticulturist, Head Gardener and Team leader at Sovereign Hill, Studied in the UK

Industry Horticulture

Skills Create official, registered archive for 'The Collation and Collection of Heirloom Fruit and Vegetable Cultivars' as a forum for public and professional research and development • Create standard, accepted listing of botanical nomenclature and common names to minimise current confusion • evaluate erosion of available 'Heirloom Fruit and Vegetable Cultivars' through the creation of a database • Highlight lack of awareness and the advantages of biodiversity of 'Heirloom Fruit and Vegetables Cultivars' • Highlight alternatives to chemical-based production methods • Illustrating potential to merge traditional and modern techniques and cultivars to add value to the horticultural industry • Illustrate practical methods to reduce 'footprint of food production' through traditional techniques

Sponsor The Pratt Foundation

**The Pratt Foundation/ISS Institute
Overseas Fellowship**

ALISA MOSS (Canberra, ACT)

Commercial Senior Interior Designer, Daryl Jackson Alastair Swain, Canberra, studied in the USA

Industries Sustainability • Building and Construction
Skills Sustainable architecture – ‘whole of life’ costs including energy and water consumption • Minimisation and control of the use of hazardous emissions that impact on the health of inhabitants • Internal spaces – ventilation, lighting, materials (determining fabric of the surfaces and painted or other finishes)

Sponsor The Pratt Foundation

**The Pratt Foundation/ISS Institute
Overseas Fellowship**

ROBERT ZILLI (Brisbane, Queensland)

Conservation Framer, Queensland Art Gallery, studied in the USA

Industry Heritage
Skills Training and skill development in gilt frame conservation • Learning techniques and practical skills in traditional and contemporary gesso texturing and re-cutting, gilding, mould-making and casting, modelling and carving and colour toning • Gaining of knowledge in the design, manufacture, ornamentation selection and finishing of historic and period frames • Researching and developing conservation practices that combine the treatment and restoration of original materials with the replication of missing elements

Sponsor The Pratt Foundation

**ISS Institute/Victorian Government
Design Fellowship**

LUISA FAZIO (Florence, Italy)

International Fellowship winner
Accessories Designer, Gucci; Masters In Fashion Design Development, Domus Academy, Consultant in market research for accessories

Industry Fashion
Skills To deliver the ‘Fashion Design and Accessories Masterclass Workshops’, comprising: a research forum, creating a fashion garment or bag in a hands-on project and a ‘mould-making and casting materials’ information session (plus buttons) • Overview of accessories within the fashion industry • Take a ‘ready-to-wear’ plain coloured men’s business shirt and remake it into a new garment or accessory • Design process, from initial concept to creating a garment suitable

for manufacture encompassing innovative design, pattern making, construction and finishing techniques • Taking into consideration – life style, function, client profile, environmental issues eg recycling • Price point • Colour • Texture • Working in collaboration in ‘design teams across occupational sectors from concept to production • Building and sustaining a career in ‘accessories’ • Materials selection such as leather, metal mesh

Sponsor OTTE, Victorian Government

**The George Alexander Foundation/ISS
Institute Fellowship**

MICHAEL DAL ZOTTO (Victoria)

Wine Maker, Dal Zotto Estate Wines, studied in the Veneo Region, Italy

Industries Viticulture • Wine making
Skills Prosecco clonal varieties • Environmental factors • Selection • Propagation • Canopy management • Harvesting • Storage • Wine making • Brand development and product positioning within a regional label

Sponsor The George Alexander Foundation

**Victorian Government (TAFE)/ISS
Institute Fellowship**

ELISABETH COLEMAN (Melbourne, Victoria)

Teacher/Coordinator, Holmesglen Institution of TAFE, studied in Italy, Germany and the UK

Industries Glass • Building and Construction
Skills Contemporary architectural glass design, particularly for large-scale work • Safety standards and energy rating • Construction – large-scale enamelling methods, lamination processes, screen printing on glass techniques • The use of colour, texture and form finish-to-work specifications with accurate tolerances to complete the project with fine quality finish • Best practice methods – a team approach • Training – best practice models of training including sustainability in the products manufacturing life and its ultimate recycling/disposal

Sponsor OTTE, Victorian Government

**Victorian Government (TAFE)/ISS
Institute Fellowship**

KENNETH BARNETT (Melbourne, Victoria)

Teacher, Program Manger, Victoria University (TAFE), studied in the United Kingdom

Industry Manufacturing
Skills Rapid manufacture • Types of rapid manufacture for specific products and

<p>industry sectors • Integration of design, innovation and quality from concept to prototyping and manufacture • Vocational education and training programs from basic to post-apprenticeship options for high level specialisation</p> <p>Sponsor OTTE, Victorian Government</p>	<p>farms, wind farms, geothermal plants Sponsor OTTE, Victorian Government</p>
<p>Victorian Government (TAFE)/ISS Institute Fellowship</p> <p>FRANK DUYKER (Melbourne, Victoria) Teacher/Lecturer Electronics, Box Hill Institute of TAFE, studied in Germany</p> <p>Industry Energy</p> <p>Skills Undertake an overseas study program to gain skills and a comprehensive understanding in current hi tech renewable energy technologies – fuel cells, hydrogen production and biogas • Design of regulators, inverters and systems • Current photovoltaic panel characteristics • Solar thermal systems reflectors, concentrators, solar cooling, passive design</p> <p>Sponsor OTTE, Victorian Government</p>	<p>Victorian Government (TAFE)/ISS Institute Fellowship</p> <p>SYLVIA WALSH (Melbourne, Victoria) Teacher, Textiles and Fashion, RMIT (TAFE), studied USA and UK</p> <p>Industry Fashion</p> <p>Skills Creativity and quality design within the context of a rapid response to market demands and Supply Chain • Marketing and sales strategies • Building the business of textile design, manufacturing and distribution • Management models which are based on innovation and flexibility • Recycling/disposal</p> <p>Sponsor OTTE, Victorian Government</p>
<p>Victorian Government (TAFE)/ISS Institute Fellowship</p> <p>BRENDAN HILL (Geelong, Victoria) Chef Instructor, Gordon Institute of TAFE, studied in the USA, Spain and France</p> <p>Industry Food</p> <p>Skills Undertook an overseas study program to gain skills and a comprehensive understanding in the field of food • Use of colloids and setting agents • Texture modification agents • Use of liquid nitrogen • Use of specialised equipment • Presentation and design on the plate, table and restaurant</p> <p>Sponsor OTTE, Victorian Government</p>	<p>ISS Institute/Italy (Veneto) Fellowship</p> <p>RAYMOND CADMORE (Melbourne, Victoria) Teacher, Competitive Manufacturing, Sunraysia Institute of TAFE, studied in Italy</p> <p>Industry Alternate Energy Systems</p> <p>Skills Undertake an overseas study program to gain skills and a comprehensive understanding in the field of biodiesel • Sustainable technologies and low carbon emission fuel sources • Oil gains crops and cropping techniques – selection, harvesting, transportation, storage, processing, distribution systems and marketing • Pathways for vocational training applied to the Biodiesel Industry in Australia</p> <p>Sponsor International Division, Victorian Government</p>
<p>Victorian Government (TAFE)/ISS Institute Fellowship</p> <p>PILAR DE LA TORRE (Melbourne, Victoria) Teacher in Electrical Trades, Holmesglen Institute of TAFE, studied in Netherlands, Belgium, Spain, Germany, Italy</p> <p>Industry Energy</p> <p>Skills Undertook an overseas study program to gain skills and a comprehensive understanding in the field of solar electricity – photovoltaic • Design, install and maintain systems to meet world's best practice • Newest technologies and development in components • Management systems, policies and practices • Determine required training and qualifications of trades for these types of installations – domestic, solar photovoltaic</p>	<p>ISS Institute/Italy (Veneto) Fellowship</p> <p>SARAH CONNERS (Melbourne, Victoria) Accessory Designer and Teacher, Kangan Batman TAFE, studied in Italy and Denmark</p> <p>Industry Fashion</p> <p>Skills Accessories • Research markets, understand and forecast trends, brand development and sustainability in niche products including high-end • Pattern making and construction processes • Innovate use of new textile technology • Use of traditional materials and techniques in new contexts</p> <p>Sponsor International Division, Victorian Government</p> <p>ISS Institute/Italy (Veneto) Fellowship</p> <p>NOEL FITZPATRICK (Melbourne, Victoria) Horticulturist and Teacher, Swinburne University of Technology, studied in Italy and France</p>

Industry Skills Agriculture
Truffles • Recording and analysing environmental data from 'natural' truffle growing forests • Differentiate between natural forests and cultivated environments • Harvest truffle with licensed operators • Processing methods for value-added truffle products • Investigate European methods of grading product • Quality control and marketing strategies for the traditional, local and the competitive overseas markets

Sponsor International Division, Victorian Government

ISS Institute/Italy (Veneto) Fellowships

PAULINE PORCARO (Melbourne, Victoria)

Senior educator, Tourism, Kangan Batman TAFE, studied in Italy

Industry Skills Agritourism
The Italian model of agri-tourism • Adding value to existing local industries • The Red Cock model • Label promotion of mega regional produce brand • Bottom-up development of regional produce labels • How to build acceptance of agri-tourism within farming communities • Establishing and maintaining quality criteria to guarantee the reliability of the label • Quality management systems

Sponsor International Division, Victorian Government

2008

Skills Victoria/ISS Institute TAFE Fellowship

GITANJALI BEDI (Melbourne, Victoria)

Course Coordinator, National Centre for Sustainability, Swinburne University of Technology (TAFE Division), studied in the UK and Europe

Industry Skills Sustainability
Current international best practice and future directions in sustainability • Frameworks and tools to conduct sustainability measuring and reporting related to supporting the transition to a low carbon sustainable economy

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE Fellowship

JULIE BELLE (Melbourne, Victoria)

Design Educator, Holmesglen Institute of TAFE, studied in the UK and USA

Industry Skills Entertainment
Techniques and practical skills in scenery, set dressing and decorating for live action film and television • Prop selection, maintenance and organisation

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE Fellowship

COLIN CARTER (Melbourne, Victoria)

Senior Educator, Swinburne University of Technology (TAFE), studied in Italy, France and Spain

Industry Skills Agri-food
Cultivation of French black truffles • Identification of truffle species and developing an audit and certification process for inoculated seedlings, trees and truffles • Management and technical systems for growing truffles in Australian conditions

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE Fellowship

JENNIFER CRITCHLOW (Melbourne, Victoria)

Upholstery teacher, Holmesglen Institute of TAFE, studied in USA, UK, Germany and Italy

Industry Skills Furniture
Designing and manufacturing recyclable furniture • Upholstering materials and practices • Steel framing fabrication • Injection moulded foam techniques • Fabric sustainability and maintenance

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE Fellowship

TONY DARCY (Melbourne, Victoria)

Plumbing Teacher, South West Institute of TAFE, studied in Ireland and the UK

Industry Skills Green Plumbing
Geothermal systems and designs for domestic heating and hot water use • Installation • Design and installation for grey water utilisation and recycling

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE Fellowship

WERNER HAMMERSTINGL (Melbourne, Victoria)

Coordinator in Multimedia studies, Swinburne University of Technology (TAFE), studied in the USA and Europe

Industries Skills Green Printing • Sustainability
Sustainable practices in photo-imaging small volume printing using analog and digital media and processes • Pigments and substrate combinations to achieve cost-effective archival outcomes of high quality and low overall carbon footprint • emerging technologies such as 'smart paper'

Sponsor Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE
Fellowship

SCOTT MEGEE (Melbourne, Victoria)

Hospitality Teacher, Holmesglen Institute of TAFE, studied in the USA and Belgium

**Industry
Skills**

Food
Whole grains and speciality flours in complex artisan bakery • Retarding techniques in bakery • Physical and chemical characteristics of speciality breads • Meeting dietary and health requirements

Sponsor

Skills Victoria, Victorian Government

Skills Victoria/ISS Institute TAFE
Fellowship

ADAM VOAK (Melbourne, Victoria)

Transport Logistics Teacher, Kangan Batman Institute of TAFE, studied in the UK and USA

**Industry
Skills**

Management
Cradle-to-cradle Supply Chain green logistics in relation to its carbon footprint • Transportation, logistics, warehousing, manufacturing, supplier inputs

Sponsor

Skills Victoria, Victorian Government

Skills Victoria (TAFE)/Italy (Veneto)
ISS Institute Fellowship

PETER BURKE (Melbourne, Victoria)

Visual Art/Graphic Design Program Manager, Victoria University (TAFE Division), studied in the Italy, UK and France

**Industry
Skills**

Print Media
Creating images which can be reproduced through digital and analog (traditional hand-painted) technologies into various settings and surface materials • Relationships between colour, light and sound

Sponsor

Skills Victoria, Victorian Government

Skills Victoria (TAFE)/Italy (Veneto)
ISS Institute Fellowship

TINA MARINO (Melbourne, Victoria)

Fashion Design Teacher, RMIT University (TAFE), studied in the Veneto Region, Italy and France

**Industry
Skills**

Fashion
Fashion design • Draping for fitting, prototyping garments and pattern making • Tailoring and couture finishing techniques

Sponsor

Skills Victoria, Victorian Government

The George Alexander Foundation/
ISS Institute Fellowship

TERRI MERCIECA (Melbourne, Victoria)

Chocolatier and Pastry Chef, Owner Fraise Savage, studied in Spain, Belgium, France and the UK

**Industry
Skills**

Confectionery
Chocolate and dessert making • Advanced tempering techniques • Moulding • Truffle making and cut pralines • Decorating and sculpting • Panning • Molecular gastronomy techniques

Sponsor

The George Alexander Foundation

The Pratt Foundation/
ISS Institute Overseas Fellowship

MARK OLIVER (Buderim, Queensland)

Aquaculture Teacher/Trainer, Sunshine Coast TAFE, studied in the Republic of Palau, Micronesia, Indonesia

**Industry
Skills**

Fisheries
Hatchery techniques for premium marine fish • Conditioning and spawning barramundi, the giant clam, cod and coral trout • Feeding and applying husbandry techniques to the larvae, growing and weaning to fingerling

Sponsor

The Pratt Foundation

The Pratt Foundation/
ISS Institute Overseas Fellowship

ADRIAN BEST (Canberra, ACT)

Consultant, Stirling Castle Hospitality P/L studied in Japan, USA, UK and Europe

**Industry
Skills**

Food Manufacturing
Spirit distilling • Traditional and contemporary beverage manufacture for micro-distilleries • Design, manufacture and blending • Identifying regional produce that can benefit from value-adding through manufacture into spirits

Sponsor

The Pratt Foundation

The Pratt Foundation/
ISS Institute Overseas Fellowship

TONY BUNDOCK (Melbourne, Victoria)

Controlled Environment Horticulture Leader, Chisholm Institute of TAFE, studied in the Netherlands

**Industry
Skills**

Horticulture
Hydroponics • Managing controlled environments • Crop production techniques • Advanced IT – climate control software and associated applications to track crop production inputs and outputs and farm management techniques

Sponsor

The Pratt Foundation

**The Pratt Foundation/
ISS Institute Overseas Fellowship**

NOVA MCNAMARA (Melbourne, Victoria)

Engineer, Ford Australia, studied in Germany, Belgium, UK
Industry Automotive Manufacturing
Skills Vehicle recycling • ‘Recyclability’ requirements, substance use restrictions and parts marking conformance for end of life recycling and environmental measures • Understanding the impending CO₂ legislation and the strategies to reduce fleet CO₂ • EU legislations requirements and processes

Sponsor The Pratt Foundation

**Agri-Food Skills International
Fellowship**

MELINDA HOWLETT (Wangaratta, Victoria)

Course Coordinator, Teacher, Goulburn Ovens Institute of TAFE

CELIA TURNBULL (Wangaratta, Victoria)

Program Coordinator, Teacher, Goulburn Ovens Institute of TAFE, studied in the UK, Ireland and USA

Industry Veterinary
Skills Large animal rescue • Emergency management – personnel, equipment and operations • Application – backwards drag, cast animals, float/transporter accidents, helicopter, fire, water or mud rescue, helicopter

Sponsor Agri-Food Industry Skills Council

**International ISS Institute/
DEEWR Trades Fellowship**

ANDREW DE DEZSERY (Adelaide, South Australia)

Proprietor, Omega Fish Products, studied in the USA and Canada

Industries Aquaculture • Horticulture
Skills Commercialised integration farming of aquaculture and hydroponics • Waste management • Value-adding to output • Commercial profitability and productivity gains

Sponsor DEEWR, Australian Government

**International ISS Institute/
DEEWR Trades Fellowship**

JAMIE DOWNIE (Melbourne, Victoria)

Vehicle Body Builder, Kustom Garage, studied in the USA

Industry Automotive
Skills Metal forming • Power hammers in the generation of a 3D object – design, fabrication and maintenance • Specialised metal finishing techniques using the air

Sponsor planishing hammer • OHS issues
DEEWR, Australian Government

**International ISS Institute/
DEEWR Trades Fellowship**

RICHARD EXLEY (Darwin, Northern Territory)

Proprietor, Australian Vanilla Bean, studied in Europe and the USA

Industry Agri-food
Skills Vanilla bean production • Pollination • Techniques and timing • Curing – post-harvest handling and storage, curing techniques • Understanding the science of best practice to develop aroma and flavour related to appearance, flexibility, length and vallon content • Packaging practices

Sponsor DEEWR, Australian Government

**International ISS Institute/
DEEWR Trades Fellowship**

GABRIELLE GAUCI (Wangaratta, Victoria)

Industry Trainer, Racing Victoria Ltd to travel to England and Ireland

Industry Equine
Skills Stablehand standards in the Racing Industry and other sectors, such as studs and race clubs • Reform of accredited courses for track riders, stablehands for the Thoroughbred and related Racing Industry and Pony Clubs

Sponsor DEEWR, Australian Government

**International ISS Institute/DEEWR
Trades Fellowship**

DEREK (JOE) GARNHAM (Dalby, Queensland)

Lecturer, Australian Agricultural Colleges Corporation, studied in the UK, Netherlands, Germany, Belgium and Austria

Industry Horticulture
Skills Science and methods for the accelerated process of production composted humus on a large- and economic-scale using agricultural, municipal and organic waste ingredients

Sponsor DEEWR, Australian Government

**International ISS Institute/
DEEWR Trades Fellowship**

RICHARD KNIGHTS (Bollon, Queensland)

Farmer, Owner ‘Acme Downs’, studied in Namibia and South Africa

Industries Agriculture • Dorper Sheep Breeding
Skills Paddock to plate management practices • Knowledge of environmental and natural resource management requirements for a

balanced, sustainable Dorper Sheep enterprise
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

PAUL HERBIG (Launceston, Tasmania)

Cookery/Patisserie Teacher, Drysdale Institute of TAFE, studied in the USA

Industry Food
Skills Artisan baking • Napa Valley – value-adding to regional produce, techniques in food preparation and presentation artisan baking and patisserie, marketing
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

CRAIG KELLY (Wagga, NSW)

Vehicle Painting Teacher, Riverina Institute of TAFE, studied in UK and Germany

Industry Automotive
Skills Techniques and practical skills in the application of water-based automotive paints • Dry systems • New regulatory requirements for materials • Colour matching • Waste management
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

EOIN O'CAOIMH (Sydney, NSW)

Head Teacher, Western Sydney Institute of TAFE, studied in UK and Spain

Industry Building and Construction – Heritage
Skills Crystallisation inhibitors in the preservation of heritage buildings • Physical characteristics of masonry products in heritage settings • Science and technology of current products related to the elimination of salinity in masonry
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

DAVID O'SULLIVAN (Adelaide, South Australia)

Proprietor, Dosaqua P/L, studied in the UK and Ireland

Industry Aquaculture
Skills Ecosystem based fishery management • Conduct and manage more effective audits in key compliance and regulatory areas encompassing food safety, eco-labelling, organic produce, traceability, Supply Chain

assurance and environmental management
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

GAVIN PARTRIDGE (Fremantle, Western Australia)

Research Scientist, Challenger TAFE, studied in the USA, Mexico and Panama

Industry Aquaculture
Skills Seafood • Spawning and rearing yellowfin tuna larvae from fertilised eggs to weaned juveniles in a controlled aquaculture environment
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

GILLIAN RAINER (Perth, Western Australia)

Jewellery Teacher, Central TAFE Perth, studied in the UK

Industry Manufacturing
Skills Jewellery manufacture encompassing laser technologies, PUK welding on previous and other metals, materials and technologies used in granulation and fine-wire work
Sponsor DEEWR, Australian Government

International ISS Institute/
DEEWR Trades Fellowship

SHANE WEST (Canberra, ACT)

Head of Building and Construction, University of Canberra, studied in Japan, Germany and the UK

Industry Building and Construction
Skills Energy efficient and sustainable building using lightweight construction materials and technologies • Air and weather tightness fixing and sealing systems • Breathable fabrics and moisture barriers and their application
Sponsor DEEWR, Australian Government

ISS Institute/Victorian Government
Design Fellowship

DAVIDE FASSI (Milan, Italy)

International Fellowship winner

Architect, Politecnico di Milano. He integrates his design practice with research and teaching environmental sustainability. Fassi conducted 'Really Creative Really Fast Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at RMIT University • 'Milano in Melbourne Program @ the DIA' Seminar.

<p>Industries Skills</p> <p>Hosted by DIA • Industry visits Industrial Design • Manufacturing Industrial design • Display Systems/ Spaces – Design, innovative use of materials and leading edge technologies from concept to production of a prototype for manufacturing, all undertaken through collaborative practice. The focus was to create a display system, which could be one unit or one of a modular series • Design/Production Teams designed and constructed a prototype for a display system - free standing object • Flat packed • Easy to assemble, disassemble, store, transport, clean, maintain • durable • Be constructed using materials and techniques in-line with placing in a public environment (safety)</p> <p>Sponsor</p> <p>OTTE, Victorian Government</p>	<p>accessories, textiles, stationery and promotional products), undertakes trend research and design directions development for new scenarios in textile design; is a fashion stylist. Colombi conducted 'Forces and Desires. Clothing Becomes Communication Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Box Hill Institute of TAFE • 'Forces and Desires. Re-configuring Design for a New Journey'. 'Milano in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits Fashion</p> <p>Industry Skills</p> <p>Fashion design • New intersections between the human body, design and international trends • Textile and material design culture from historic to contemporary contexts • An introduction to the textile market with a focus on retail and communication • Using the theme, 'Wrap It', develop a unique garment which can be wrapped anywhere on the body which is suitable for manufacture</p> <p>Sponsor</p> <p>OTTE, Victorian Government</p>
<p>ISS Institute/Victorian Government Design Fellowship</p> <p>GIOVANNI CONTI (Milan, Italy) International Fellowship winner Industrial Designer, PhD, Politecnico di Milano. He is responsible for the dynamics of innovation connected to processes of cross-fertilization between fashion and culture and its links to industrial design. Conti integrates his design practice with research and teaching. He Conducted '[re] configurations Textiles: Surface Patterns'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Kangan Batman TAFE • 'Forces and Desires. Re-configuring Design for a New Journey.' 'Milano in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits</p> <p>Industries Skills</p> <p>Textile • Fashion Textile design and production for specific markets/consumers • Working in design/production teams • Creativity and knowledge of surface patterns from concept to prototype suitable for manufacture encompassing design, surface pattern making and selecting the appropriate printmaking processes and materials • Textile and material design culture from historic to contemporary contexts • An introduction to the textile market with a focus on retail and communication</p> <p>Sponsor</p> <p>OTTE, Victorian Government</p>	<p>ISS Institute/Victorian Government Design Fellowship</p> <p>ANNALISA DOMINONI (Milan, Italy) International Fellowship winner Industrial designer, PhD, Politecnico di Milano. Dominoni conducts Teaching and research activities in the field of extreme environment design at the INDACO Department of the Faculty of Design. Her projects aim at increasing comfort and adaptability in extreme and little-known environments and human conditions encompassing the design of hi tech and innovative industrial products with clients such as NASA. Dominoni conducted 'Architecture of the Small. Solutions for Confined Spaces Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Swinburne University 'Made in Italy. How Italian design and education are adapting to a changing marketplace'. 'Milano in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits</p> <p>Industry Skills</p> <p>Architecture Designing for living and working in confined environments/ compact living • Analysis of benefits and disadvantages of confined spaces compared to living and working in traditional buildings • Physiological, ergonomic and psychological effects on the subjects • Design/Production Teams – create a new design for confined spaces which will be able to be manufactured/constructed</p> <p>Sponsor</p> <p>OTTE, Victorian Government</p>
<p>ISS Institute/Victorian Government Design Fellowship</p> <p>CHIARA COLOMBI (Milan, Italy) International Fellowship winner Industrial Designer, PhD, Politecnico di Milano. She is a designer (apparel,</p>	

**ISS Institute/Victorian Government
Design Fellowship**

MATTEO INGARAMO (Milan, Italy)

International Fellowship winner
Architect and Industrial Designer, PhD, Politecnico di Milano. He is involved in teaching, research and product design for firms, such as Whirlpool. Ingaramo conducts scientific research activities at national and international level. He is responsible for the Italian participation in the Sino-European Design Management Network. Ingaramo conducted 'Design Masterclass: a Different Way of Thinking, Creating and Working'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Swinburne University • 'Made in Italy. How Italian design and education are adapting to a changing marketplace'. 'Milano in Melbourne Program @ the DIA' Seminar. Hosted by DIA. • Speaker at the 'Really Creative Really Fast. Automotive Industry Think Bank'. Hosted by DIIRD.

**Industry
Skills**

Architecture
Designing for living and working in confined environments/compact living • Analysis of benefits and disadvantages of confined spaces compared to living and working in traditional buildings • Physiological, ergonomic and psychological effects on the subjects • Design/production teams – create a new design for confined spaces which will be able to be manufactured/constructed

Sponsor

OTTE, Victorian Government

**ISS Institute/Victorian Government
Design Fellowship**

FRANCESCO GALLI (Milan, Italy)

International Fellowship winner
Industrial designer, PhD, Politecnico di Milano. Galli conducts research and design practice – strategies and scenarios, presentation and visualization for new solutions in communication design. Galli conducted 'Strategic Design. Fusing Design' and 'Interactive Media Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Victoria University (TAFE) • 'Made in Italy. How Italian design and education are adapting to a changing marketplace'. 'Milano in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits
Communication Design
Corporate communication • Cross-design vision strategy • A strategic approach to creating online communications that work • Cross-media

**Industry
Skills**

interaction, audiovisual communication, and the language of the digital moving image • Issues and work practices surrounding the convergence of language, technical, and strategic skills in contemporary communications

Sponsor

OTTE, Victorian Government

**Victoria University/ISS Institute
International Fellowship**

ERLING CHRISTOFFERSEN (Denmark)

International Fellowship winner
Furniture Designer and Manufacturer, Christoffersen has been designing and manufacturing furniture since 1979. He graduated from the Royal Academy of Fine Arts, School of Architecture in 1982 and continues his interest in education and training through his position as Associate Professor at Denmark's International Study Program, DIS and as Professor, University of Oregon. Founded the renowned Danish studio, 'Design 134' his work has featured in numerous public and private exhibitions including Danish avant-garde design. Conducted 'Strategic Design. Fusing Design' and 'Interactive Outdoor Living workshop - Media Workshops'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Victoria University (TAFE) • 'Made in Denmark. How Scandinavian design and education are adapting to a changing marketplace'. 'Denmark in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits
Furniture Design
Create an object for 'outdoor living'. The object may be a chair, table or stool, or one of a modular series for a domestic or commercial setting • Solutions: teams produce thumbnails, roughs and working drawings, which depict (in scale), the object's visual characteristics, physical properties and dimensions and make a prototype of a free-standing outdoor living object, suitable for manufacture

**Industry

**ISS Institute/Victorian Government
Design Fellowship**

ARTURO DELL'ACQUA BELLAVITIS (Milan, Italy)

International Fellowship winner
Architect, Professor and Direttore del Dipartimento INDACO, Politecnico di Milano. He supervises and teaches design management, design strategies and technological and prototyping at

the Politecnico di Milano and Bocconi University. He is Vice-president of the Triennale Foundation of Milan and President of the Design Museum Foundation. A member of the Cultural Committee of the European Union for the arrangement of a university European network on design problems, he undertakes research, works internationally from Helsinki, Orleans, Oslo, Barcelona, Montreal, Sao Paolo, Athens, London, Glasgow, Berlin to Buenos Aires. He conducted 'Design Masterclass. Sustainability. Inspiration. New Products'. There were three workshops – one with students, the others with designers, industry and educationalists. Hosted at Victoria University (TAFE) • 'Made in Denmark. How Scandinavian design and education are adapting to a changing marketplace'. 'Denmark in Melbourne Program @ the DIA' Seminar. Hosted by DIA • Industry visits

Industry Skills

Furniture Design
Create a product for the 'tourist market' • Research to define consumer profile and psychology • Themes • Ideas – emotions, sources for inspiration • Branding/marketing • Produce final drawings suitable for manufacture • 'Solution teams': two people (a designer/creative with a technical/trades person) will generate ideas and design solutions suitable for manufacture • Each team will form a company/brand and design two products under one brand. One product will be for the 'Asian market' eg Thailand. The second product will be for the 'Italian market' • Consider sustainability (life cycle assessment) • Designed product is able to be flat packed or stacked

City of Melbourne/ISS Institute International Fellowship

PROFESSOR MASAO FUKUHARA (Osaka, Japan)

International Fellowship winner
Landscape Architect and Professor at Osaka University, Arts - Environmental Design School; winner at the prestigious Chelsea Flower Show, UK and designer of gardens within traditional and contemporary settings in Japan and internationally

Industry Skills

Landscape Design
Masterclasses will focus on taking the principles and elements of Japanese Landscape/ Environmental Design, then to transpose those understandings into settings suitable for Australia's geology, climate, lifestyle and architecture. Taking up the principles, elements and practical skills

in Japanese Landscape Design together with Environmental/Sustainable Design to create an 'outdoor space' which considers the elements of space, movement, rhythm, contrast, harmony, water, sculptures, natural stone and materials such as bamboo, plants (size, colour, texture, etc) as well as pavilions, outdoor rooms, bridges and lighting (such as lanterns).

The Fellowship program will run for two weeks in May 2010. In addition to the masterclass/workshops, in our 'Industry Links' program, there will be ample opportunity to share learnings through activities, such as dinners, lectures, seminars or site visits

Sponsor City of Melbourne

ISS Institute Overseas Fellowship**

AMY WAI MAN CHAN (Melbourne, Victoria)

Architect, Heritage Victoria, studied in Norway

Industries

Heritage • Timber

Skills

Environmental sustainability in timber heritage • Comparing the applications of various conservation charters within specific cultural circumstances • Appropriate use of traditional carpentry – equipment, techniques and materials selection • Accurately diagnose problems with historic timber structures and specify appropriate conservation procedures

Supporter

The Pratt Foundation

**The Pratt Foundation/
ISS Institute Overseas Fellowship**

CRAIG DAY (Cowra, NSW)

Director, Spray Safe and Save P/L (NSW), studied in the UK

Industry

Agriculture

Skills

Evaluate the national sprayer testing service in the UK and its ability to be integrated into practical training of chemical applicators
• Analyse environmental frameworks and legislation used in the European Union • Mitigate issues of chemical spray drift and off-target movement of pesticides

Supporter

The Pratt Foundation

**The Pratt Foundation/
ISS Institute Overseas Fellowship**

MATTHEW GURN (Adelaide, South Australia)

Marine Fitter, South Australian Maritime Museum, studied in the UK

Industries

Heritage • Maritime

Skills

Conservation of iron ships • Treating iron hull plating and surface coating of iron ships
• Environmental controls and preserving

vessels on dry land • Conservation project management techniques for the analysis of the chemical properties of different types of metals used in ships and related objects • Testing technologies for the degradation and tolerances of different types of metals

Sponsor The Pratt Foundation

**The Pratt Foundation/
ISS Institute Overseas Fellowship**

RICKY MILNES (Melbourne, Victoria)

Plumbing Trade Teacher, Northern Melbourne Institute of TAFE, studied in the Netherlands

Industries Environment • Plumbing
Skills Analyse the particular uses for membrane filtration in industry, agriculture and domestic plumbing • Differentiate the methods, equipment and levels of technology to the various applications • Educate stakeholders and employees in membrane filtration technology • Analyse strategies to educate the general community in the economic and environmental advantages of the technology

Sponsor The Pratt Foundation

ISS Institute/RMIT University Fellowship

INNA KONOPOV (Melbourne, Victoria)

Teacher, School of Fashion and Textiles RMIT University (TAFE), studied in USA

Industry Textiles
Skills Evaluating and assessing advanced fibres, yarns, fabrics for advanced protective textiles and clothing • Latest testing methods and protocols • Advanced protective fabrics for extreme environments • Performance requirements of protective clothing

Sponsor RMIT University

AgriFood Skills International Fellowship

FIONA CHAMBERS (Trentham, Victoria)

Proprietor, Fernleigh Free-Range, Victoria Farming - Pigs

Skills Best practice in free-range piggeries in which sows farrow outdoors • Managing sows in a free-range extensive system, without using stalls • Effective marketing strategies • Understanding European and USA legislative context

Sponsor AgriFood Skills Australia

AgriFood Skills International Fellowship

HELEN NEWELL (Rockhampton, Queensland)

Trade/Investment Officer, Department of Employment, Economic Development and

Innovation, Queensland Government, studied in the UK and Europe

Industry Agri-business
Skills Securing current market intelligence and Supply Chain mapping for the agri-food industry • Conducting research on agri-business Supply Chains relating to products identified as being suited to UK and EU markets • Gain market skills in facilitating international partnerships and Supply Chain networks

Sponsor AgriFood Skills Australia

**International Building
and Construction Fellowship**

GERARD HEALEY (Melbourne, Victoria)

Engineer, ARUP, studied in the USA, UK, Netherlands

Industry Construction
Skills Identification and classification of practical issues associated with integrated building systems during construction, commissioning, tuning and maintenance • Physical, functional and psychological interfaces between building systems • Design options and evaluation methods for more effectively integrating building systems

Sponsor Construction and Property Services Industry Skills Council (CPSISC)

**International Building
and Construction Fellowship**

TOMI WINFREE (Melbourne, Victoria)

Project Manager/Industry Trainer, National Centre for Sustainability, Swinburne University of Technology, studied in the USA

Industry Sustainability
Skills Whole system approaches to sustainable housing • Emerging technology trends for next generation carbon positive homes • International strategies for sustainable communities • Next generation of sustainable home renovations and domestic building

Sponsor Construction and Property Services Industry Skills Council (CPSISC)

**The George Alexander Foundation/
ISS Institute Fellowship**

ANNABELLE COPPIN (Western Australia)

Farmer/consultant West Australian Beef and Livestock Services studied in the USA

Industry Animal Husbandry
Skills Economics, logistics and engineering of a mobile slaughterhouse operation in remote areas • Regulations and procedures to operate this system • Analyse skills and processes required prior, during and post-slaughter • Determine requirements for a

multi-animal use system such as cattle, camels and kangaroos • Differentiating marketing strategies to sustain a profitable enterprise

Sponsor The George Alexander Foundation

Skills Victoria (TAFE)/ISS Institute Fellowship

MICHAEL ANDERSON (Melbourne, Victoria)

Project Manager, Water Industry, Chisholm Institute of TAFE, studied in the Israel, Netherlands, Spain

Industries Sustainability • Water

Skills Construction techniques for water assets • Storm water re-use • Energy conservation in treatment plants • Design and planning of water distribution assets • Water efficiency and the impact of climate change

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/ISS Institute Fellowship

BAYDEN CLISSOLD (Wodonga, Victoria)

MTA Course Coordinator, Wodonga Institute of TAFE, studied in the USA

Industries Automotive • Motor Sport

Skills Trends analysis related to technology, componentry, business practices, environmental protection measures, safety equipment and risk management Identify and determine methods and technologies related to green sustainability practices • Benchmark against international training providers

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/ISS Institute Fellowship

MARK McDONALD (Geelong, Victoria)

Teacher, Joinery and Cabinet Making, Gordon Institute of TAFE, studied in Germany

Industry Building and Construction

Skills Develop sustainability practices within kitchen and bathroom manufacturing processes from design through to manufacture and installation encompassing • Machinery and tooling • Energy consumption • Materials selection • Surface treatments • Packaging • Recycling and waste management • Reduction of carbon emissions along the Supply Chain

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/ISS Institute Fellowship

CRAIG PEACOCK (Melbourne, Victoria)

Training Coordinator (Meat Retail), William Angliss Institute of TAFE, studied in the USA and Canada

Industry Food/Meat Retailing

Skills Meat retailing to address current and future markets • Use of traditional butchery skills applied to animals other than beef, sheep, chicken and pork into processing plants to meet diverse cultural needs • New cuts of meats to address fast food preparation trends • Gain skills and knowledge on methods of packaging and labelling for retail sale • Develop sustainable strategies in meat retailing

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/ISS Institute Fellowship

MARIA PELLEGRINO (Shepparton, Victoria)

Baking and Patisserie Trainer, Goulburn Ovens Institute of TAFE, studied in Europe

Industry Food

Skills Mould design and production for Australian baking and patisserie markets • Determine the appropriate types of materials and technologies related to creating new and innovative moulds • Clarification of crystallisation of sugar and chocolate • Techniques and temperature control • Science of humidity in patisserie • Shelf life and factors that extend shelf life

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/ISS Institute Fellowship

GITA PENDHARKAR (Melbourne, Victoria)

Electronics Teacher, RMIT, studied in Brazil and the USA

Industry Electronics

Skills Interpretation of electrical signals from the brain to provide control of prosthetic devices through design and production of electronic devices • Understanding complex signal processing techniques used for neuroprosthetic control • Specialised technology and algorithms used to measure and analyse signals at the brain-prosthetic interface

Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/Italy (Veneto) ISS Institute Fellowship

MARY MICELI (Melbourne, Victoria)

Design Educator, Swinburne University of TAFE, studied in Italy

Industry Sustainable Signage

Skills Identify and differentiate sustainable materials for environmental graphics/signage for indoor and outdoor applications • Usage of new materials such as polymers, assemblage and 'green' printing techniques on materials

other than paper • Skills in the appropriate application of LED technologies
Sponsor Skills Victoria, Victorian Government

Skills Victoria (TAFE)/Italy (Veneto) ISS Institute Fellowship

TRUDIE ORCHARD (Melbourne, Victoria)

Manager, Textile Testing Services, RMIT University (TAFE), studied in Italy and France

Industry

Fashion

Skills

Systems and methods of evaluating sustainability of textile materials • European based quality assurance systems • Compare retail garment and fabric quality assurance systems • Develop links with textile testing institutions and appraise relationships between apparel retail suppliers and testing authorities eg nanotechnology

Sponsor Skills Victoria, Victorian Government

2010

AgriFood Skills International Fellowship

DR ROBIN DOBOS (Armidale, NSW)

Research Scientist, Animal Systems Modelling and Genetics, Industry and Investment NSW, Division of Primary Industries, Science and Research, Beef Industry Centre of Excellence, studied in France and Italy.

Industry

Beef, Livestock, Free-range Animal Management, Farming

Skills

Analysis of livestock research data • Analyse landscape use patterns • Spatio-temporal data collection and analysis using GPS loggers • Better understanding of animal movement and interaction with the environment • Improved understanding of feed resources for production • Improved understanding of animal welfare • Greater understanding of utilising data for sustainable resource allocation.

Sponsor AgriFood Skills Australia

AgriFood Skills International Fellowship

PETER REYNOLDS (Yenda, NSW)

Horticulturist, Reynolds Horticultural Services PTY LTD, studied in the USA, Israel and Spain.

Industry

Horticulture, Farming, Irrigation, Sustainability, Environmental

Skills

Understanding of Irrigation Management best-practice techniques/methods relating to horticulture • Greater ability to identify

key strategies, practices and equipment used internationally • Ability to adapt these to Southern Australia's region and climate • Gain knowledge to improve on-farm water use enabling greater efficiency, increased production and reduced water use • Production, pest and disease management • Understanding of current and future horticulture trends.

Sponsor AgriFood Skills Australia

AgriFood Skills International Fellowship

PAUL WILSON (Nimbin, NSW)

Farmer/Cheesemaker, Nimbin Valley Dairy, studied in Europe and China.

Industry

Dairy, Cheese Making, Waste Management, Environmental

Skills

Understanding of best-practice techniques in effluent management • Energy generation from dairy effluent • Fertiliser as a by-product • Practicality and financial feasibility of a dairy farm biogas system • Practical, legal and safety issues surrounding the dairy farm biogas system • Become familiar with feasibility studies to determine the success or failure of proposed dairy farm biogas systems • Knowledge regarding the ongoing management of the biogas system.

Sponsor AgriFood Skills Australia

The George Alexander Foundation/ISS Institute Fellowship

PATRICIA CHIRCOP (Melbourne, Victoria)

Knitwear Designer/Owner, KNIT Melbourne, studied in Japan and Italy.

Industry

Fashion, Clothing

Skills

Understanding whole-garment design principles of knitwear • Advancing previous knowledge of Shima Seiki whole-garment knitting machines • Learning to program the machines by undertaking the appropriate course • Understanding the ability of the machine to produce a higher-quality garment with less waste • Understanding the technical aspects of industrial knitting machines in order to be able to consult to fashion-based companies on design and manufacturing • Understanding of the computer programming required to achieve the desired results • Being able to design more proficiently by understanding the limitations and abilities of knitting by reducing manufacturing costs and enhancing design understanding of knitwear.

Sponsor The George Alexander Foundation

International Building & Construction Fellowship

GOVIND MAKSAY (Melbourne, Victoria)

Residential Buildings Specialist, Moreland Energy Foundation Ltd (MEFL), studied in the UK.

Industry	Insulation, Building, Construction, Sustainability, Environmental
Skills	Understanding of training packages, accreditation programs and standards that govern blown-in cavity wall insulation <ul style="list-style-type: none"> • Ability to adapt these to Australia • Understand how the blow-in cavity wall insulation retrofit program was implemented and is managed by the UK Government • Learn about the Cavity Wall Insulation Guarantee Agency (CIGA) in the UK • Ability to translate this to Australia • Development of a trial of the blow-in cavity wall insulation retrofit method • Assess the effectiveness and applicability to Victorian houses • Expansion of a retrofit blow-in cavity wall insulation program in Australia for inclusion in the Victorian Energy Efficient Target Scheme.
Sponsor	Construction and Property Services Industry Skills Council (CPSISC)

Skills Victoria International TAFE Fellowship

STEVEN BEVAN (Melbourne, Victoria)

Program Manager, Royal Melbourne Institute of Technology (RMIT) University, studied in Europe.

Industry	Additive Manufacturing, Selective Laser Melting, Advanced Manufacturing, CNC Machining, Laser Machining, Laser Cutting, Education
Skills	Understanding of best-practice procedures and how these assist companies in improving productivity and profitability <ul style="list-style-type: none"> • Understanding the methods used to engage industry in best-practice training and engage them in actively researching new areas in order to increase productivity • Understanding additive manufacturing, its implementation and its uses in mainstream manufacturing • Assess the latest methods and research into additive manufacturing being conducted overseas • Assess latest trends in advanced manufacturing in Europe • Gauge how these can be implemented here in Australia to increase the productivity, profitability and competitiveness of Australian businesses in the global market.
Sponsor	Skills Victoria, Victorian Government

Skills Victoria International TAFE Fellowship

ROSS BURY (Melbourne, Victoria)

TAFE Teacher, Furniture Studies, Victoria University, studied the UK, the USA and Sweden.

Industry	Design, Furniture, Education
Skills	Understanding accelerated apprenticeship delivery and how it is being used in the UK <ul style="list-style-type: none"> • Strengths and weaknesses of the model being used in the UK • Assessing the viability of implementing this model in Australia • Gain knowledge of Sweden's state-of-the-art furniture design courses • Determining how these courses can be delivered to current apprentices • Understanding of the USA's college-based learning, where full-time study is undertaken before employment • To assess whether these programs are suitable for integration into pre-apprentice and apprenticeship courses in Australia • Consult with TAFE institutions in Victoria about addressing the skills shortages in the furniture industry • Encouraging a 'design' mentality enabling Australia to be a leading international design trend setter in the furniture industry.

Skills Victoria International TAFE Fellowship

GARY MAHON (Melbourne, Victoria)

Chef Instructor, Northern Melbourne Institute of TAFE (NMIT), studied in Italy and France.

Industry Skills	Food, Hospitality, Bread Making, Education Understanding in the high-quality, modern practices used in bread making and Viennoiserie (pron. Vy-en-wah-zer-ree) pastries • Benefits of using high-quality flours, whole grain, minimally processed grains • Understanding the milling process and the affects on bread dough • Improve the techniques and knowledge in the making of artisan bread and Viennoiserie (pron. Vy-en-wah-zer-ree) pastries • Research modern bread making machines • The benefits of high-quality machines and how these translate to high-quality bread • How to produce bread of a high quality • Understanding the quality of different types of flour • Understanding how the quality of the flour affects the bread • Dietary requirements and the production of gluten-free breads, yeast-free bread • The use of pre-ferments • Knowledge in the advanced techniques involved in Viennoiserie (pron. Vy-en-wah-zer-ree) laminating and enriched dough • Analyse the different qualities of the breads and pastries produced and how to improve the standards of pastries in Australia.
Sponsor	Skills Victoria, Victorian Government

Skills Victoria International TAFE Fellowship

DR GANESH NAIK (Melbourne, Victoria)

Teacher, School of Engineering, Royal Melbourne Institute of Technology (RMIT), studied in Canada and Brazil.

Industry Skills	Medical, Prosthetic, Information Technology (IT), Electronics, Assistive Technology (AT), Education Learning techniques and practical skills in assistive technology (AT) devices, such as smart wheel chair and robotic hand • Gaining in-depth knowledge in using developmental tools utilised for the robotic hand and smart wheel chair • Researching technologies used for the integration of biomedical signals for rehabilitation and health care technology • Developing and providing a platform for training and teaching, based on the existing biomedical signal processing techniques for currently available AT devices • Examining techniques for the integration of smart AT devices using biomedical signal processing and electrical engineering devices •
------------------------	---

Exploring developing cheap and easy-to-use smart AT devices.

Sponsor Skills Victoria, Victorian Government

Skills Victoria International TAFE Fellowship

VINCENT PANOZZO (Melbourne, Victoria)

Automotive Training Advisor, Automotive Body & Specialist Trades, Kangan Institute, studied in the USA and Canada.

Industry Skills	Automotive Manufacturing, Recreational Vehicle Manufacturing, Education Examine different engineering design techniques to reduce vehicle mass, materials and construction times • Investigate the different design regulations overseas in comparison to the Australian Design Regulations (ADRs) • Explore lightweight materials used in manufacturing • Gaining an understanding of alternative material production • Use and location of High Strength Steels (HSSs) • Use and location of alloys and composites • Exploring the different manufacturing, construction, bonding, welding, assembly and surface finishing processes • Understanding the development of cell construction techniques • Examining how to reduce production times • Different waste management programs/techniques • Material selection and recycling opportunities • Researching new production equipment and new manufacturing technology • Researching new equipment • Understanding the 'cost to benefit' in manufacturing and production.
Sponsor	Skills Victoria, Victorian Government

Skills Victoria International TAFE Fellowship

ALAN PLATT (Melbourne, Victoria)

Senior Educator, Automotive Team of the School of Engineering, Technology and Trades, Swinburne University, studied in the USA.

Industry Skills	Hybrid Automotive, Education Understanding of 3-Phase AC induction and electric machine systems • Understanding inverter, regenerative braking, battery pack, energy management and hybrid vehicle safety systems • The ability to safely disable Hybrid Electric Vehicle (HEV) high voltage systems • Identify various types of HEV systems • Identifying scan tools used and analysing systems for proper operation • Analysing, diagnosing and repairing HEV systems • Undertake Train the Trainer course • Visit community colleges to observe training
------------------------	--

<p>of automotive students in emerging HEV technologies • Visit automotive factories where hybrid technology is being manufactured and ascertain service and repair requirements.</p> <p>Sponsor Skills Victoria, Victorian Government</p>	<p>their functional value • Insight into possible future trends in Australia • Awareness of consumer food miles and production ethics • Awareness of the use of probiotics in the treatment of allergies • International policy in relation to the labeling of functional foods • Awareness of the skill sets required for innovation and application in dairy manufacturing.</p>
<p>Skills Victoria International TAFE Fellowship</p> <p>DAVID SCANNELL (Melbourne, Victoria) Curriculum Services Manager, Holmesglen Institute of TAFE, studied in the USA.</p> <p>Industry Education, Building, Construction, Training</p> <p>Skills Identifying examples of best-practice, flexible delivery of e-learning • Investigating embedding e-learning and other innovative delivery and assessment strategies into training delivered to the building and construction industries • Identifying current and emerging technologies in the applications training and assessment • Identifying how mobile phone technology can be applied to training and assessment in the building and construction industries • Document the benefits, efficiencies and effectiveness associated with the use of e-learning, m-learning and other forms of information and communications technology in trade training • Investigate the use of these technologies in capturing the imagination of learners, particularly generation Y • Inform RTOs on how to develop delivery and assessment strategies using these new technologies.</p> <p>Sponsor Skills Victoria, Victorian Government</p>	<p>Sponsor Skills Victoria, Victorian Government</p> <p>Skills Victoria International TAFE Fellowship</p> <p>TAO (GEORGE) YUE (Melbourne, Victoria) Program Coordinator/Automotive Teacher, Chisholm Institute of TAFE, studied in China.</p> <p>Industry Education, Automotive</p> <p>Skills Analysing current Chinese automotive industry practices • Applying this knowledge to implement changes to Australian VET courses and enable teachers and students to gain an insight into the Chinese automotive industry • Formulating an induction program for new managers in Australia seeking careers in the Chinese automotive industry • Verifying and evaluating the key drivers in Chinese automotive technology advancement, such as fuel economy and environmentally friendly technologies • Comparing these key drivers to the Australian automotive industry • Broadly analysing the potential growth of the Chinese automotive industry in relation to future expansion into the Australian market • Identifying the potential for Australian VET organisations to expand into servicing the Chinese industry entering the Australian marketplace • Seeking opportunities for teacher and student placement programs within Chinese vocation institutions to increase their understanding of the industry and the training support structures in place.</p>
<p>Skills Victoria International TAFE Fellowship</p> <p>BRONWYN TURTON (Hoppers Crossing, Victoria) Senior Educator, National Centre for Dairy Education Australia, studied the USA and Canada.</p> <p>Industry Education, Food, Dairy, Health, Agrifood, Functional Food</p> <p>Skills International trends relating to functional foods • Manufacturing practices and workforce development needs for dairy-based functional foods • Increased knowledge of functional foods that target the immune system and digestive health • Health benefits of functional foods • Understanding of the new advances in food technology • New manufacturing methods being used internationally • Awareness of products developed and marketed overseas • Knowledge of the particular characteristics and nutrient values of milk • Knowledge of bioactive components of milk and milk products and</p>	<p>Sponsor Skills Victoria, Victorian Government</p> <p>Skills Victoria Veneto (Italy) International TAFE Fellowship</p> <p>PAUL GRAY (Melbourne, Victoria) Coordinator, Plumbing, Northern Melbourne Institute of TAFE (NMIT), studied in Italy.</p> <p>Industry Plumbing, Waste Management, Environmental, Sustainability</p> <p>Skills Understanding of domestic and industrial decentralised waste water collection and treatment systems • Understanding of the implementation of these systems • The impact of a decentralised system on our potable water supply • The ecological aspects of a decentralised system •</p>

Technological solutions for small waste water treatment plants • Small-scale waste water reclamation and reuse • Small-scale nitrogen waste water systems • Study of remote control systems • Water quality • Economical aspects of decentralised systems • Introducing these systems of collection and treatment into the plumbing industry • Establish ongoing networks with international leaders in the field of waste water management.

Skills Victoria Veneto (Italy) International TAFE Fellowship

FRANCESCA JORIO (Melbourne, Victoria)

Teacher, William Angliss Institute, studied in Italy.

Industry Agri-tourism, Tourism, Food, Wine, Environmental, Sustainability

Skills Experience 'land to table' models in local regional areas of Italy • The benefits of using local produce • Advantages of incorporating the community in produce production • Environmental benefits of lowering food miles • Developing regional areas as year-round tourist destinations • Identifying the rich diversity each regional area offers • Understanding of how alpine areas expand tourism during off-peak times • Understanding how mountains can be used for summer sporting activities • Current tourism programs and initiatives in Italy • Accommodation alternatives • Understanding how these programs and initiatives can be adapted and implemented in Victoria • Understanding how agri-tourism and community involvement in produce production can be adapted to Victoria and how it can create jobs in regional areas.

2011

AgriFood International Fellowship

DR ANGUS CROSSAN (Abbotsford, NSW)

Program Manager – R&D, Australian Egg Corporation Ltd. Study to take place in the UK, Europe (the Netherlands), Canada and New Zealand.

Industry Food, Egg, Poultry, Agrifood, Health
Skills Evaluate the international models used for delivery of training in leading egg industries, with specific attention to flexible models, new technologies and processes in order to overcome the challenges in Australian egg production systems.

Sponsor AgriFood Skills Australia

AgriFood International Fellowship

KIM CHALMERS (Mildura, VIC)

Director, Chalmers Wines Australia Pty Ltd. Study to take place in Europe.

Industry Food, Wine, Agrifood

Skills Improve knowledge and skills in sustainable viticulture by investigating heat- and drought-tolerant grape varieties and viticultural techniques for adaptation in Australia in the face of climate change.

Sponsor AgriFood Skills Australia

AgriFood International Fellowship

JODIE HUMMERSTON (Drummoyne, NSW)

Project Officer, National Meat Industry Training Advisory Council Ltd (MINTRAC). Study to take place in the UK and Germany.

Industry Meat Retail, Food, Agrifood, Education

Skills Gain an understanding of current and future international training practices in the meat retail industry, including workplace training, e-learning, and post-trade training to develop the Australian meat industry.

Sponsor AgriFood Skills Australia

City of Melbourne Boston Sister Cities International Fellowship

PROFESSOR KENT LARSON (USA)

International Fellowship winner

Director of the Changing Places Research Group, MIT Media Lab.

Industry Architecture, Design, Sustainability
Skills Highlight the MIT 'Living Lab' concept and the architectural and environmental influences on future building and living design through guest speaking roles, seminars, lectures and workshops.

Sponsor City of Melbourne

Furnishing Industry Association of Australia (Vic/Tas) International Fellowship

MARY CUSHNAHAN (North Fitzroy, VIC)

Teacher, Kangan Institute. Study to take place in Canada and Europe.

Industry Furnishing, Education

Skills Investigate international apprenticeship training techniques in the non-licenced trades covered by the Furnishing Training Package to improve attraction and retention rates, and to combat language, literacy and numeracy (LLN) difficulties, and skills set difficulties across the Australian furnishing industry.

Sponsor Furnishing Industry Association of Australia (Vic/Tas)

The George Alexander Foundation
International Fellowship

CHRISTOPHER BOURNE (Sherwood, QLD)

Industry Engineer, Foodstream Pty Ltd. Study to take place in Canada and the USA.
Skills Food, Packaging, Retail, Health
Study world's best practice techniques and regulations for thermal processing and gain knowledge in the modelling methods used to predict food deterioration characteristics, in order to guarantee food safety while maximising quality for longer shelf life of food products.
Sponsor The George Alexander Foundation

Skills Victoria Overseas Fellowship

SHEILA DOUGLAS (Montrose, VIC)

Industry VET Manager, Employ-ease Pty Ltd. Study to take place in New Zealand, Canada and the USA.
Skills Aged Care, Education, Training
Identify international best practice in successful delivery of aged care training by small education providers for application in rural and indigenous communities in Australia to increase completion of VET courses within these communities.
Sponsor Skills Victoria, Victorian Government

Skills Victoria Overseas Fellowship

RICK DUNN (Allansford, VIC)

Industry Teacher – Bakery, South West Institute of TAFE. Study to take place in Germany.
Skills Food, Baking, Education
Undertake a master skill bakery course to build capability and skills in the baking industry to improve delivery of the newly accredited Certificate IV in Advanced Baking in Australia.
Sponsor Skills Victoria, Victorian Government

Skills Victoria Overseas Fellowship

MICHAEL HATTON (Wunghnu, VIC)

Industry Horticulture Teacher, Goulburn Ovens Institute of TAFE. Study to take place in the UK, Japan, Canada and the USA.
Skills Horticulture, Food, Agrifood, Education
Evaluate international community education standards to ensure engagement in 'grow your own' food and the development of activities and programs that improve the health and sense of community wellbeing through community gardens.
Sponsor Skills Victoria, Victorian Government

Skills Victoria Overseas Fellowship

SUSAN MORRIS (Mont Albert, VIC)

Industry Teacher/Architect, Box Hill Institute. Study to take place in Europe.
Skills Building and Construction, Architecture, Engineering, Education
Investigate European sustainability regulations to inform future developments in Australian sustainability and thermal performance regulatory reform and to investigate successful collaborative learning opportunities for students in the building industry trades.
Sponsor Skills Victoria, Victorian Government

Skills Victoria Overseas Fellowship

MARK THOMPSON (Belmont, VIC)

Industry Teacher – Furniture Studies, Victoria University TAFE. Study to take place in Europe and the UK.
Skills Furniture Finishing, Furniture, Education
Investigate international standards for water-based finishing applications, viability of alternative products, elimination of toxic chemicals, and the different training techniques relevant to the Australian furniture finishing industry.
Sponsor Skills Victoria, Victorian Government

Skills Victoria Overseas Fellowship

ROSLYN WALKER (Hawthorn, VIC)

Industry Teacher/Film Producer, Open Channel. Study to take place in the USA.
Skills Film, Television, Education
Develop knowledge and cultural exchange regarding current international best practice in developing quality TV series and animation feature films for input into teaching units and courses in Australia.
Sponsor Skills Victoria, Victorian Government

William Angliss Institute/ISS Institute
Fellowship

BRENDAN CARTER (Ballarat, VIC)

Industry Teacher – Baking, William Angliss Institute of TAFE. Study to take place in Germany.
Skills Food, Baking, Education
Attend an intensive six-week training course covering the entire scope of German bread making – this course is the German Backermeister (Master Artisan Baker), the highest qualification for selected bakery owners.
Sponsor William Angliss Institute
